The High Noon tour in Europe has officially started!

The High Noon team has made a lot of effort to come to Europe and present their content. We really see this as a great tool to support blessed families and BCs in our daily lives. So let's spread the word!

FAQ about the High Noon Tour in Europe:

• What is High Noon?

High Noon's name stems from the term that True Father used when speaking of a life without shadows. High Noon exists to create a culture of sexual integrity, openness, and heavenly sexual intimacy. They provide programmes for pornography recovery based on Unification Principles, and they have also started [School of Love](#), which supports parents in how to speak to their children about sex.

• Who are they?

A team of 7: David + Mitsue Wolfenberger are a 1st gen couple who founded the program, Sammy + Yigyu Uyama (and their little baby!) are a 2nd gen couple and the directors, Andrew Love is head of community outreach and Sancha Ogden is in charge of leading communications.

Here is a short video about the tour:

• What are they offering?

One-day seminars in a few nations and 3-hour evening programmes in other nations.

• Who is the content for?

Anyone 16 years or older, 1st and 2nd Gen.

• **What is the content of the one-day seminar? In the evening programme?**

Two lectures on creating a culture without shadows and the dangers of pornography today. After lunch, there are two separate talks: one for couples living together about "Heavenly Intimacy", the other for singles on "Preparing for Heavenly Intimacy". The seminar concludes with discussions in small groups about how to create a culture of honesty and integrity by starting with ourselves.

The evening programmes are a shorter version, with the first lectures combined into one and split "Heavenly Intimacy" discussions afterwards. Heavenly Intimacy refers to changing the negative way in which sex is often talked about in our movement, and understanding the love and joy of the sexual relationship, which is the greatest gift God wants a husband and wife to experience.

- Which cities are they visiting? (one day seminars are in bold)

Comments by High Noon attendees

"...how do we deal with the message society conveys to our kids?"

"My main concern is how to educate our children and all the 3rd gen in France about sexuality. For many of us sex was introduced through Ch 2 of the DP and our vision of sexuality was negative. When should we educate our kids and how do we deal with the message society conveys to our kids? That's why I came here today."

"Meaningful, logical and convincing"

"It was extremely meaningful, logical, and convincing. I felt deeply Heavenly Parent's heart behind this presentation. It gave me hope, encouragement, and confidence about the future of our Blessed Family communities and the world. High Noon's commitment is contagious :)"

"To live a life without shadows"

"I'm happy I was able to attend the event. As a 2nd gen I could relate with the content shared and the main message: to live a life without shadows. It's something to practise not just overcoming a struggle with porn but also to build honest relationships with our family and community by sharing our struggles in order to overcome together. It's a real challenge for me to open myself up to others, but I feel empowered to keep trying."
