Sent to Unification Church Dec. 28, 2010

Dearest Spiritual families,

“The love of Parents of heaven and earth is with us” I would like to thank you for being concerned to the situation on today’s God’s providence. Please take your time on reading on my explanation to some of our family member’s unanswered questions.

The Growing period of God’s word

Whenever God sent his messenger to deliver his new directions, most of the people he considered his own refuses to accept the changes; many were confused and even mistakenly think that God is Satan because they do not understand that God’s word is keep on growing parallel to the development of the providence. As a result, it is always difficult for God to introduce his new ideas.

This will likely to compare with a growing up individual, as you’ve grown up to be an adult, the clothes you used to wear during your childhood would no longer fit for you and you could not wear them anymore, therefore you need a new clothes to fit you and keep the old one into the closet which would serve as a remembrance of your early childhood days. Same also with God’s Word, when the old commandment is no longer applicable to the current age, God will set them aside and establish the new one.

God’s process of salvation is mainly symbolism. In the Old Testament era, the method of Blessings as a symbolic purification was performed by draining of blood into the ground through circumcision. Symbolically, this is the type of ritual which God can claim the purified person as member of His family.

During the New Testament era, the sacrament from the Jewish faith known as Baptism was adopted by the early Christians and elevated higher than circumcision. It was performed as a symbolic act of rebirth centered on Jesus Christ. Literally, the work of salvation here was not limited to a person who only believed the Christ and be justified by doing less effort in return to his blessings ([Romans 10:9](#)) this is because Christianity assumed that due to Jesus crucifixion all sins was indemnified and been forgiven, without knowing that due to his crucifixion Jesus lost his chance to cultivate the growing Word of God and was not able to clarify the purpose for his coming. ([John 16:12](#)) There were many things regarding the purpose of salvation of which supposedly Jesus has to give the outline to his people.

His intention was to present the new system of the restoration which is part of God’s developing Word. Unfortunately, he never had gone into details. But in spite of so much difficulties and not having enough time to present the said outline Jesus managed to improve the old system of God’s word and able to set-up the foundation of the New Testament word.

After the crucifixion of Jesus, God’s promise to elevate the Blessings of humanity by sending the Lord of the Second Advent had finally arrived. True Father introduced the Exposition of the Divine Principle this book clarifies the significant meaning of signs and the metaphoric word found in the Old and New Testament. And in 1960, the new method of Blessing Ceremony had been given which is more understandable and highly effective compared to the Blessing ceremony implemented by the

Old and New Testament. The work of salvation here is based on a person's result of indemnification by passing through conditional blessing (3 days ceremony) as symbolic sacrament of rebirth. This book emphasizes the higher dimension of God's word and it clearly explains the purpose of creation and the process of restoration that Jesus wanted to fulfil during his time (John 16:12).

Though the True Parents had established an enormous victory of God's providence, still it is undeniable that the Exposition of the Divine Principle is on its state of growing. So, there is a possibility that many of the chosen people (The Unification Church) couldn't grasp the new strategy of God which to carry out the final stage of restoration. **Stressing further that this current age is very crucial.**

The creator is not exempted

If all creation were developed according to the direction of the Principles, then, the Creator of all things should not be exempted to this process. Therefore God's Word also is obliged to pass through the stages of growing period.

God is a personality of always rotating, (Rev. 22:13) and in every single complete rotation there will always something new to come out with it as part of his infinite regeneration. As a result, **the Word of God in the new age will always overcome the power and the authority of the old age.** This is the reason why the Lord of the Second Advent urges his people to be aware of this event for them to avoid a direct persecution to God as what had happen at the time of Jesus.

See Bible references. (Hebrew 8:13) **“By calling this covenant NEW he has made the first one obsolete; and what is obsolete and aging will soon disappear.”** And (Hebrew 10:09) Then he said, **“Here I am, I have come to do your will. He sets aside the first to establish the second.”** Jesus tried to convince the chosen people to abandon their old faith **because the words of God which they believed in was about to expire.** But the chosen people did not even understand Jesus' declaration. **Consequently, because of their ignorance that God's word is growing, disgracefully the chosen people killed their own King by protecting the Old Testament word.**

The Old Testament did not explain everything in details, because if it does, why would it be necessary for Jesus to bring down the New Testament to clarify the old? And If God uses the same words repeatedly, again and again, it will be impossible for him to fulfill the purpose of salvation. This is one of several examples why God is often persecuted by his own people because the chosen people completely misunderstood that God's Word which is the Divine Principle is actually growing.

God, as the **Heavenly Parents**, needs to communicate with his people without boundaries similar to what the biological parents normally do to their children. As long as the physical parent is alive, they will continue to give their words which are necessary for their children's advancement. And that word will keep on changing everyday because the word of parents is obviously dependent on the development of the children's growth. For example: Parents will talk to an infant as infant, speak to a child as a child and talk to their matured and grown up children directly without using any broken language.

Hence, if the Parents will speak to their children repeating the same statement again and again, confusion, uncertainty and disaster of relationship would surely strike within the family. Just imagine, if your Father would ask you to pick-up something on the floor and you did, but still your Father keeps on repeating the same instructions though you already have done it, definitely, this would really create confusions within yourself.

The Word of God will develop according to the development of the heart, the spiritual growth and

the fulfilment of the Providence of the chosen people. For instance, Moses express God's word more comprehensible than Abraham, Jesus Express God's word more logical than Moses and the Lord of the Second Advent express the word of God more specific than Jesus. These are the evidences that God's word will flow according to the development of the providence.

Back in 1970s, True Father strongly declares that anyone of the Unification church members who did something terrible against the Principle parallel to the fall of Adam and Eve will never be forgiven, most especially if the said person is already knowledgeable on God's Principle. But in the late 90' s, the True Parents gave the grace of forgiveness to the repentful heart of the Unification family members who have the spirit and willingness to undergo any indemnity conditions whatever course it takes for them to return to God. Those forgiveness is an indication that God's Word change if the providence changes.

Many events in the past remain unclear until today's generation. Even the painful history of restoration was boldly explained by the Exposition of the Divine Principle. But there are more explosive revelations of God's Word that requires sincere attention, but of course it depends on the preparedness of his people. For example: The Exposition of the Divine Principle chapter 2 clarifies the real meaning of the fall of man **but then the issues behind the fallen act between the Arch Angel and Eve needs more clarification and emphasis to be understood more deeply.**

We do believe that God is the Creator of all things; none is exempted including the Angelic world. For that reason, God can intervene anytime to any unrighteous motives of the Arch Angel towards Eve without violating the Principle since Lucifer's position is purely servant to God. **The King can intervene to the evil intentions of a servant without violating the law of his Kingdom particularly when it comes to the security of his only beloved daughter.**

Moreover, the loving parents will never entrust their children to a servant with a childlike behaviour, irresponsible and who doesn't even have the capacity to serve. But in this case, though Lucifer was not perfect but he was no longer a kid considering the facts that were being introduced by the Principle of which was been emphasized that God created Lucifer as servant to his children.

On other hand, we all knew that Eve is the daughter of the King of the Cosmos. Therefore, being a servant it is not easy for the Archangel to convince Eve to have a give and take action of false love with him in the spiritual manner. In the future, **you will be surprised that there was actually another effective way for the Arch Angel to get Eve's attention without having intervention even if God wanted to do so.**

The Exposition of the Divine Principle is true, but we must have to remember that God's Word is growing and along the way towards the era of direct dominion-ship, God will speak to his people directly and he will reveal the unexplained history of the past and provides the highlights of his plan.
(Deeper explanation on my next mail)

Please think deeply with an open heart and mind my Dearest family that the Word of God will not just stay around on the Exposition of the Divine Principle, but somehow, it will unstopably develop and finest than of what we have learned and recognized in our lifetime. The Divine Principle will continually evolve even if the Kingdom of Heaven here on Earth as it is in Heaven is fully established.

With this explosive truth, someone may disagree but they must turn around and look back to the meaning of the Divine Principle. Divine Principle is a reality behind the law which only lives by the process of divine give and take action as God have spoken; **"I am the alpha and the omega"** (Rev. 22:13) **because without the process of harmonious giving and receiving, there is no way for the Divine Principle to progress or grow.**

Therefore, the people of God must accept the fact that whenever God renew his words it will always difficult to adopt the changes especially if the said chosen people are deeply ignorant of his own faith and never understood that the Divine Principle which he believes in is actually growing. Certainly, **those chosen (The Unification Church) people who think that God's Word will just stay the same as it is today are ignorant of the truth.**

Obviously, the mission of the Lord of the Second Advent is to bring us, from being a sinner into a sinless person **and eventually once we understand our responsibility we reach to perfection by our own effort while we are still alive.** And then if we reach to that level of perfection, **we can easily understand God's unique language through heart.** This phenomenon surely changes the course of restoration because God himself can now explain freely the history that never been told in the exposition.

My wife and I are very confident that this event is already happening inside the Unification family today. We knew that the church is not yet ready to deal with this type situation but they should always be open to any spiritual issues so that they can help those members, bring them in front of True Parents if they can instead of persecuting them.

This is not impossible to happen since it has been the ultimate purpose of the True Parents to bring the perfected Blessed couples in front of God as his greatest offering **before his time is running out to witness this event physically.**

The Unification Church leaders is the hindrance of perfection

None of the Unification leaders believed that perfection on the Blessed Couple is already happening today. Therefore, if there will be one to come out, the church leaders is the first to the block the way. Through the fact that, when the younger generation overcome the idea and wisdom of the **older one, their first reaction is to disagree with it, thinking that being an elder of the church they are more knowledgeable on the principle compared to the younger generation.**

Most often, they certainly said as quoted: **"That's unprincipled Mr Young boy, your mind is negative you must repent because you have resentments with you."** I have heard this statement many times from the older members of Unification church **as their defense mechanism when they get cornered as they can't give exact answer to the deeper question. And I believe that this arrogant elders of the church will be perish because their ignorance of the truth overlap the balance of their consciousness** and the Divine Principle that kept within them remain underdeveloped.

This letter serve as the reminders to the Unification leaders and members who traditionally defended **The Exposition of the Divine Principle** without considering the possibilities that there will be more expositions of the truth like what had happen to the time of Jesus when he was crucified by his own people by protecting the Old Testament word.

But God will not let these things to happen again. Besides, the Word of God, the Divine Principle is not like a piece of meat that if you put them on in an extreme heat, it will shrink and become smaller. As long as there is a revolution of a divine give and take action, the Divine Principle will continue to grow as part of its infinite regeneration.

Like for instance, as you are standing in one side of the riverbank, you can clearly observe that that the flow of water keeps on moving downwards. While keep looking on the water in front of you, you will notice that it is no longer the water that you saw a while ago, it is now the fresh one which is flowing continuously from the source. Base on this condition, you will obviously see that the water keeps changing but repeating the same process because if the river will stop its movement, all living

things that relies on the quality of that water will be sick and died.

Likewise, the Divine Principle has also similar characteristics to that of the river flow. Whether you like it or not, **whatever you have understood and recognized of God's word today it will normally develop significantly due to the continuous renewals of the truth and that development certainly overlap your old faith so you must always maintain you heart and mind openness so that you will not directly persecute God.** Hence, if the Principle stops revealing the new truth the hope of the believers will be weakened and the faith of hopelessness will drive them to the path of the spiritual illness.

But if the influence of the Divine Principle develops into a larger aspect through the help of members who attained the level of God's direct dominion-ship, **the explanations on the history will be more specific** especially if everyone in the Blessed families, the Blessed Couple and Education Department will help each other in bringing the Divine Principle up to the peak of its growth. We, as the Unification church members are in-charge to the cultivation of God's word. **Therefore we should not block to anyone who has the deeper realizations on the Principle. Rather, we should be proud of and bring them into the education department and help to explore their unique thoughts and investigate it if the new idea is the result of the expansion of the Principle. On other hand, anyone on the Unification family who will not able to comprehend to the higher expression of the Principle will be left behind and their failures will becomes burden of God's developing Word.**

The Most affected in the providence when the Principle evolves to a higher dimension

The Blessings is the center of restoration, therefore it is the most affected when God brings out the providence up to its higher dimension. Under the Principle of Restoration, all blessings adopted by the chosen people such as circumcision, Baptism and Conditional Blessing are all temporary and God can change it anytime depending on the fulfilment of the providence. **The bigger the accomplishment of the providence is, the greater the blessing would be.** And as mention above, **the arrival of the new blessing is basically the end of the authority of the first one.**

Let us examine the Conditional Blessing based on the ceremonial rites. According to the Principle, the failure of Adam and Eve in attaining the holy matrimony centered on the 3 Great Blessing is the root cause of all the difficulties of today's generation. As a result, human being must resolve this problem otherwise the law of restoration will never come to an end. To correct this failure, God introduces the Conditional Blessing through the True Parents and the formula is taken from the Principle of Restoration. This blessing is a foundation being established by God **temporarily** to make sure that the complete salvation is attainable by the human beings.

The main subject of the Conditional Blessing is the 3 days ceremony, a marriage rite in which all the procedures are made carefully by the Blessed Husband and the Blessed Wife under the directions of the Principle of Restoration centered on the True Parents. After the successful ceremony, the so called Blessed Couple is born, and as the new Adam and Eve, they will now begin their rough journey towards the growth level of the completion stage. **These Blessed Couples should attain perfection during their earthly life or else they will remain in the conditional realm when they died.** These would be a huge spiritual disaster to that Blessed Couples.

After fulfilling the Portion of Responsibility on the conditional realm, another dimension of blessing direct from God is expected to arrive, a blessing that would justify the resurrection of the Blessed

Couples from being under the Principle of Restoration to the life which is under the Principle of Creation. This is called **“The True Blessing,”** because the formula and the process of the marriage ceremony is given direct from **Heavenly Parents,** without this blessing the Blessed Couple **will never have a chance to reach their ultimate goal of perfection.**

Furthermore, we now learned **that the Conditional Blessing is temporary** and intended only for the salvation, **therefore the second Generation shall not be given the same process of marriage ceremony** because they are not under the law of the Principle of Restoration. **If we do, seems we feed our Blessed children unintentionally to the mouth of a hungry lion.** The Unification family must open their eyes to this issue. Be aware that the true 2nd generation is in **DANGER** especially for those who are prepared to go to the altar of Holy Marriage **considering the fact that the process of the 3 days ceremony base on the Conditional Blessing is not applicable to them.**

If the Unification church believed that the second generation is the direct lineage of God, then they will definitely agree that the procedure of their marriage ceremony is given directly from God as well. This blessing is supposedly intended for Adam and Eve if they haven't fallen, but God's most awaiting marriage ceremony was taken away. I still believe on the credibility of the Unification Education Department, therefore I challenge them to give a serious attention on this issue.

The separation from Satan

The Unification Church teaches perfection but 95 percent of its members including lecturers and leaders never believe that perfection is attainable in their lifetime, this is because they don't fully realize that dying physically without achieving perfection is a huge spiritual misery, **aside from that, most members doesn't know the secret on how to abandon Satan totally.**

Satan will never ever abandon the sinners but the sinners perhaps could deny and abandon him. Satan has the power if you will believe on his existence but if you don't he is weak and powerless. Supposing you are in between God and Satan and God will tell you **“You are my people.”** Definitely being a sinner you can't speak any words for God's favours because your conscience keeps on telling you that you are sinful and deep within your heart you are uncertain if you really are a God's people.

On the contrary, Satan will disagree to God's claims for he knew that sinners will always be at his side and God could not confront with Satan's arguments **because it should be you to confirm your position.** If you uphold that Satan is true and keep on saying **“Yes I am a hundred percent Satan”** therefore you are Satanic and God can not have anymore chance to claim you back to his side, **as we already knew that in the providence of restoration your word of confirmation and actions will justify your position to which Master you want to belongs to.**

You are the judge of your own self. If you are willing to separate from Satan then you must deny totally his existence. According to True Father **“You can not separate from Satan if you keep on remembering your sins”.** Whenever you keep on saying that your self is Satan then he will permanently dominates you. But if you deny Satan and justify your self in front of him that you are God's people by doing the will of the Principle then you will become God's People. This is because to separate from Satan is not just to deny his dominion on you but also to deny substantially his existence. **You should never ever declare that your blood is a hundred percent demonic otherwise these words you have spoken will be a bondage that hooks yourself up to Satan as your Master forever.**

Sharing the educational and unique spiritual inspirations

May 13, 2010 - Jhun

I was walking on the walkway of a big round lake sets on the bottom side of a very high mountain. While walking, I notice that the water on the lake seems to be in **long stagnant** for quite long time as I noticed some algae floating on top of the green water. As I continuously observe on the water I saw a number of small fish swimming around but looks very exhausted as it appears to my mind that the lake is **lack of oxygen** for them to breath.

At the center of the lake I saw that there were book floating on top of the green water so it made me curious on a very unusual event why such book is out there in the middle of the lake, so I decide to go for swim to take a look closely what is in that books. While swimming, I noticed that there were actually a huge number of dead big old fish scattered everywhere on the lake some of them are still alive but same to the small fishes they too are dying and very exhausted.

As I've reach to where the book is rested, I've realized that there were three books actually being placed in the pyramid form of rock which the upper end just emerge right before the top level of the water and the three books sets on top onto the others. As I lifted them up, I saw another dead old fish underneath and another one is still alive but also dying and struggling for survival.

I put the 3 books back to where it was and decided to head back to the dry land with so many questions in my mind. Suddenly, I heard a very loud rumbling scary noise coming from the top of the high mountain, and then the peak spewed with a huge volume of crystal clear water heading towards the lake. The force of the water flow is so strong and unstoppable. Upon reaching to the lake, the Crystal clear water pushes out the stagnant old water including the old dead fishes, the three books and other elements that float on the lake were washed away except the small young fishes.

The scenery was so spectacular wherein the stagnant green water of the lake is replaced with Crystal clear water, keeping all the young small fishes alive but unfortunately, none of the dying big old fish have survived.

Symbols and its meaning

1. The high mountain represents God.
2. The Crystal clear water represents the coming of the higher expression of the Principle
3. The small young fishes represent the young generations of the church who set their hoped to the coming of higher dimension of the Principle. This is comparable to a young fish living in the aquarium with stagnant water with the hoped that the owner will come to change the stagnant water with the fresh one.
4. The big old fish that dies and washed away represent the old members of the church who assumed that the quality of the Principle they believed in will stay the same as it is today and onwards. This type of old faith is comparable to an old fish living in the stagnant water of the aquarium fighting for survival and never expect to the coming of the higher quality of fresh water to replaced stagnant one.
5. The unclean stagnant water on the lake represent the Principle that had been exposed but never been understood, the Word of God that become stagnant.
6. The stagnant water that being pushed by the Fresh water away means that there is a total changes of God's Providence that require total renewals of God's Word
7. The book underneath the two = The Old Testament
8. The Book in between = The New Testament
9. The book sets on top = The Book of the Principle of Restoration

10. The 3 books that washes away = God's word under restoration law will soon expires and vanish away.

My Dearest spiritual family, it is not hard for us to understand why God's providence through the management of the Unification leaders Philippines are **stranded** because it is very visible to our naked eyes of what is going on inside the church. **My wife and I, vow to wake them up by using any means of communications if they don't change.** In my next e-mail, I will discuss in detailed how the so called **Vertical Alignment** is being abuse by Unification church leaders Philippines which was being tolerated by the **Continental Directors.**

All Blessed Couple in the world must not forget that we are connected to the True Parents directly. Though we don't know personally, physically, but our spiritual lifeline is invisibly attached to each other. We have the responsibility to protect not only to our spiritual family but also to the most interest of God's purpose of salvation. I always agree that it is the will of the Principle to follow the central person, provided that the said central person isn't going backward. **If you realize that you are under the failure administration of the church, you have to get out of there now** and seek for God's direct guidance for you to find the right Unificationist to help you.

True Fathers words: **"You have to understand the scary time has come when Heaven directly removes those who go against God's will. Every time I see the leaders of our movement, I ask myself who will remain among them."** November 29, 2010

The leaders of the Unification Church did not understand how serious the consequences if True Father will enter to the God's kingdom without having even one perfected Blessed Couple as his offering to God. Imagine how shameful we are as member of the Unification church particular to the leaders if our loving True Father will enter to the Spirit World without being able to witness the true fruit of his unimaginable hardship.

Let us pray from our inmost heart for the Unification church leaders to be awakened from being in deep sleep. Let us take a stand for the truth, just for the truth. This is our only way to help God.

The Love of **Parents** in heaven and earth is with us.

Thanks for reading,
