

Cosmic Spring appears through our tears of repentance and tears of gratitude

Douglas Moriarty
March 4, 2022

GOOD FORTUNE FOR ALL PEOPLE OF THE WORLD, CAN COME OUT OF THIS UKRAINE CRISIS. It is a massive learning curve that we are living through. Take notice: Do not be a sponge for negative news. Do not despair and give over to fears.

True Mother, Hak Ja Han Moon declared for several past years 'PEACE STARTS WITH ME'.
Google: THINK TANK 2022 World Summit-
Unification of Korea

The following are thoughts that cannot be found on Mainstream Media, but are of most importance in understanding Ukraine, Taiwan tensions, the 3 fallen superpowers- USA, RUSSIA, CHINA, the rise of people of prayer around the world from who love God, Family and Community on a global scale from every religion, race and nation. The global prayer will bring the elimination of the DMZ

between North and South Korea and likely move the world to greater de-nuclearization.

GOD IS NOT DEAD...the world's leadership just look like they are, even they can repent and change.

The unfolding significance of the next (approximate) 100 Days March 1st, 2022 -June 6th, 2022

50 days before the Crucifixion of Jesus - a time of REPENTANCE

*GOD'S DAY 2022 is Celebrated for the first time in Spring. Including the Day of Holy Blessing of our True Parents in their 62nd Anniversary, being held together in Spring on Easter Saturday April 16th, 2022, exactly in the middle of these two periods of time.

50 days after the Resurrection of Jesus and His Empty Tomb was found, is a time of GRATITUDE

For two thousand years, Jesus guided the Spiritual Kingdom with the purpose to prepare and build a sovereign Divine Nation, in Heaven and on Earth. In May 2023, the actual building, for the governance of Cheon Il Guk is to be completed; further developing an amazing Miracle of Miracles for realizing the Hope of All Ages with True Parents...and 'One Family Under God!'

A most significant timing, beginning Tuesday March 1st, 2022 until June 6th, 2022 is a marriage of Holy Days; between the Two Providential Periods of Restoration, first carried out by Jesus for 2000 years and now through the True Parents of Heaven, Earth and Humankind.

* There is a UNION of time periods before Easter 2022 remembering the March 1st Independence Movement's Declaration of Sovereignty and the time of a 40 day period when True Father was conceived in Korea (March 1st - April 9th, 1919).

That coincides with the 'Period of Lent', a time of repentance about the Crucifixion of Jesus.

* There is a UNION of time periods after Easter as well. Easter Monday, when Jesus' tomb was found empty, begins the 49 days aka '7 weeks' of celebration, that Jesus did indeed Resurrect from the dead and the 50th day after the Resurrection of Jesus, when The Holy Spirit came upon the followers in Pentecost. This coincides with our own God's Day Celebration 2022 and our confidence in the Liberation of Korea that is soon coming.

Globally in this the 21st century, since Victory 2020 there is a path opening and leading towards REPENTANCE...That is why the world is now suffering so much. God does not cause this suffering. Evil spirits, evil principalities, along with 4 fallen natures and 4 kinds of sin cause this suffering . Based on the actions of evil entities, God then works to bring solutions; internally and externally.

We are being prompted to look at ourselves in relation to each other in regard to religion, politics, business, academia, media, arts and entertainment, but especially we are indeed being led to look at ourselves and just how we want to engage with each of these aspects of life on earth.

Now in the 21st Century, Heavenly Parent is salvaging us through World Peace Summits around the world bringing reconciliation and repentance of our fallen history in preparation to redeem us, through the Holy Marriage Blessing.

Repentance is the greatest call to battle of history and it is the hardest.

It is to absolutely offer oneself for total victory over evil; beginning with ourselves and building the true peace from that point onward and upward. Peace indeed, starts with ME.

Our time now in the 21st Century is comparable to Jacobs wrestling with God's Archangel after completing 21 years in Harran under Uncle Laban. We must fight with ourselves and be victorious over our own fallen nature, separate from 'satan', (now liberated), liberate from evil spirits and divorce ourselves of their influences, until they no longer have power over us through lies.

God's Love comes first and the use of religion came long before science and politics; so understanding of religion is of paramount importance.

True Parents have taught us and exemplified to us about service to others and have provided us with their words of education about God, to help save this world.

They provided to us, a restored understanding of Christianity that will soon bring the Abrahamic faiths together in co-operation with each other, and then the major religions of Hinduism, Buddhism, Confucianism, Shamanism, and others; to be as 'One Family Under One God'.

Then, setting an example for the rest of the world to follow.

Regarding Religion / Science / Politics. Religion and science are the two key searches for internal and external truth. Politics?... may be the search for power; I'm not really sure. □

- Prophet Radebe wisely spoke during THINK TANK 2022 about religion and politics, saying "When, without God-anointed, matured spiritual leadership, implementing political actions make big problems and solve nothing." or POLITICS - RELIGION = PROBLEMS
- 400 years ago, Galileo's persecution by the Catholic Church, caused Religion and Science to divide, giving rise to powerful conflicts in every other aspect of society. RELIGION vs SCIENCE
- These two divides have culminated in a world led by a leadership of POLITICS and SCIENCE; without RELIGION. This is the problem of the present United Nations. There is no significant spiritual wisdom, no Gandhi, no Martin Luther King Jr., no Reverend Sun Myung Moon. No TRUE PARENTS.
- To correct this situation True Parent's first action on the global stage in the USA was to correct the SCIENCE first, by creating I.C.U.S. in 1971, because mathematics and natural law came before politics and is foundational as part of the proof toward finding and experiencing God. In 2005 True Parents restored RELIGION to the development of a New United Nations, by introducing the Universal Peace Federation.

Through The Holy Wine Ceremony we received conditional forgiveness of the Original Sin.

Through this we become empowered to fulfill our own portion of responsibility. Our repentance over Personal Sin along with our inherited sins has been a process over decades and often greatly helped through the 'Chung Pyung Providence'.

The point is, that without consistent repentance, we tend to let our thinking just go wild with bias', prejudices, misunderstandings, and arrogance. We easily ignore, leave unchecked, unreflected and unobserved our fallen thinking. Suffering from Inherited Sin and Collective Sin that is mixed like a soup, with gossip of others instead of discussing with others, we assume knowledge, that is not true and build our isolation and FEARS- 'False Education Appearing Real'.

Collective sins fall upon us everyday, like the dust and dirt inside a messy room. We, then look through the battered, broken windows of our own 'past world views' that we inherited through time. What we must do, is work to clear away these walls of misunderstanding and we then, will become eternal Global Citizens and friends of the One True God, true brothers and sisters to each other.

In periods of wars, chaos, in the increase of technologies, in the building of community and nation states, in federations and alliances; even the fall of Adam and Eve is happening in 21 centuries.

Adam and Eve, fell at the top of the growth stage, so did Western Christianity fall as well, into the colonial expansion and conquest of people's around the world through greed and racism, since the 15th century; the world was raped. It did not have to be that way; but it was.

Everything that happened in the first Genesis family, happened as well in the expanding multitudes of people in the world and the future developments into nations over the past 21 Centuries, even the final Cold War between Cain and Able.

The only difference, is the 'VARIABLE' of God's raising successful central figures. Centering on Jesus, in every aspect of leadership they helped turn the tide to God's side repeatedly, whether it be Johannes Gutenberg, Martin Luther, George Washington or Nikola Tesla, they were all called to make great turning points of education and change, aligned by a love of God, rooted in Christianity, to finally bring full restoration from the fall.
