August 5, 2025

Youth Across the UK, Europe and the Middle East Unite for "Pure Water Assembly" Summer of Hope and Action.

This summer, the Europe and Middle East (EUME) region has witnessed an extraordinary wave of youth activities under the vibrant banner of the "Pure Water Assembly." With more than 50 programs held throughout July and early August so far, over 2,300 young people have already participated in workshops, seminars, service projects, and outdoor adventures - all centered on the vision of becoming "Pure Water" that can cleanse our communities and world.

The initiative has seen HARP and CARP members engage deeply with the Divine Principle, the ChamBuMoRon, and True Parents' teachings through local and regional seminars. In addition to spiritual education, participants took part in Peace Road events, including mountain hikes, river rafting, camping, and environmental restoration projects.

Originally envisioned as one large-scale Youth Assembly in July, the project evolved into a network of

coordinated events after discussions with the regional Youth and Young Adult leadership team. With approval from Cheonmuwon, all 51 scheduled activities were rebranded under the "Pure Water" theme, creating a unified identity that strengthened participation and enthusiasm.

Thanks to generous support from Cheonmuwon, organizers were able to provide high-quality programming, from renting sports fields and event halls to serving nutritious meals and purchasing sports equipment. Youth were reminded throughout that this was a gift from our beloved True Mother, and expressed heartfelt gratitude.

Participants shared moving testimonies of personal transformation and renewed purpose. The gatherings fostered unity even across national and cultural lines - a powerful testimony in a region where some countries are experiencing active conflict. Unlike many organizations constrained by national divisions, the "Pure Water" movement brought young people together through the universal peace vision of True Parents.

Looking ahead, excitement is growing for the final events of the summer, including the EUME Pure Water Assembly and Peace Cup Sports Competition, taking place August 29 - 31 in Prague, Czech Republic.

In a special highlight, over 80 youth from Europe and the Middle East will travel to Korea next week to attend the 21-Day Pure Water Assembly and Devotion, where 3,000 to 4,000 youth are expected to gather with high hopes of meeting True Mother in person.
