GREAT TO BE BACK!

We are excited to be back in the game for CARP here in the Bay Area. CARP has some great new plans for this school year of 2019 - 2020. This is why we decided to create a monthly newsletter so you can stay updated about all the amazing things that are happening in our CARP community. We also wanted to create a platform for CARP members to share their growth in applying CARP principles in their own lives.

- Vision of CARP
- How can we be truly happy?
- Are we inherently evil?
- Universal Principle and Why We Study Them

IGNITE

This month our evening program, IGNITE, happened twice: Our guest speakers Markus Von Euw and Bento Leal gave talks on:

- Worldview & It's Implications

COASTAL CLEANUP

We had the opportunity to come out as a club to serve our Oakland community. We weeded and mulched along Lake Merritt in efforts to show our planet some love and care.

UNIFICATION PRINCIPLE SEMINAR

We had our first day long seminar cohosted by Family Federation and CARP where we listened to 3 presentations on the overview of the Unification Principle:

- The Ideal World
- The Human Contradiction
- The Solution

Service Project Sep 21st, 2019:

"Serving the community during the International Day of Peace was an amazing experience. I had no expectations for that it was my first time doing a service project. As I went out of my comfort zone just being able to drive to Oakland, I felt very inspired and charismatic towards cleaning, planting, and mulching areas of Lake Merritt of Oakland. I was able to connect and learn with other people who volunteered for this event. Even though everyone was

coming from a different background, we all were able to work together in a harmonious way. I came to a realization that people like you and me are so busy with our lives, whether it's studying, working, or something, we forget to have time for ourselves to reflect with things that are going on with our lives. We tend to ignore how beautiful our world is, from the flowers on the trees and bushes, to the beautiful sunset and clouds in the sky. Well anyways, it was a very beautiful experience being part of CARP and helping out the community through service."

REYNA HARDING

"Participating in the biweekly Ignite meetings has been one of my highlights for my first semester at Chabot College. The topics that are shared are usually more thought-provoking and impactful. I'm not one to usually ask myself the deep questions, but through Ignite meetings I was able to dig deeper into why I think or act the way I do and how I can change my life in little ways to make it more fulfilling. I learned how to see a problem from many angles and solve it in ways that benefit everyone. The guest speakers that come in are interactive, relatable, and through their talks, give me an incentive to change my life for the better.

I especially enjoyed the talk on "Worldview and it's Implications" given by guest speaker Bento Leal. He gave me clearer insight into why we view the world through a certain lens, and how we can positively improve the way we look at ourselves, relationships with others and the world! Thank you CARP!
