

"Oasis of Green, Oasis of Love"

Padua, Italy, May 27, 2018

By Ana Paula F. Silva

The Following "Wien Festival - What comes next", the community of Padua is committed to realizing, once again, the Family Festival.

So, on May 27th, about 22 members gathered to celebrate the Blessing Ceremony of two couples.

This time the event was held in the beautiful landscape of the Colli Euganei, at the estate of the Bernardi family. In the open air with the sunshine, the green and the sounds of nature - the Heavenly Parent really blessed us with a beautiful day.

Everything had been carefully prepared to welcome the couples and their desire to promise eternal love before God.

The program began with an opening prayer offered by our brother Graziano Segato and continued with the reading of T. Parents Words and the Holy Wine Ceremony. We could feel God's joy in seeing His "family" expanding and growing.

Later, we celebrated by eating together pizza made by the Bernardi family.

These moments always reinforce our determination to become victorious tribal messiahs and to contribute substantially to the realization of "VISION 2020".

May Heavenly Parent's blessings always be with these two couples and all of us as we strive to truly become "One Family Under God".
