

HTM Activities in Yekaterinburg

Evgeniy Skvortsov - March 9, 2019

Four central blessed families are living in the Chapayevsky district of Yekaterinburg. We have been carrying out projects for two years; as a result, several previously married couples received the Blessing and 14 persons received the pre-Blessing with Holy Wine. We try to actively participate in significant events and initiate them ourselves. God gives many opportunities to create an environment for witnessing.

On March 9, while I was drinking coffee and playing the guitar in Moscow, my beautiful wife and a brother from our quartet were playing the main roles at the celebration of *Maslenitsa* (Shrovetide) in our area. A lot of locals came, among whom were the leaders of the school, the library, a deputy and many good friends. Folk festivals with games and dances went very well.

Our next steps are a series of psychological consultations in the library on the theme “Influence of Family Relations on the Child’s Behavior and Health,” a celebration in the village on May 9, and holding a Family Festival on July 8 on the day of family, love and loyalty.
