Reflections

- I am so impressed and inspired by teaching of TP. I am so sorry that I meet TP very late in my life. From now on my life remaining on earth, I want to dedicate to serve TP and FFWPU with the heart of gratitude
- All lecturers are great, the teaching is clear and concise about love, ideal family and peace. I want to dedicate my life for making peaceful communities through FFWPU and TP teaching
- Gratitude to staff and atmosphere of love in workshop, especially I can meet with blessed families from different provinces, can be together and share about love and TP's teaching. It's like Kingdom of Heaven

After they graduate from workshop, many communities began to do worship service and HDH regularly. They gather together in big blessed family house and joyfully and heartistically do Kajeong Mengsei, bow down to TP, study HDH and embrace each other with love. Many of community leaders request for next Divine Principle Workshop and Home Group workshop to be organized again and again because they are ready to witness and take care others to become FFWPU members and model blessed families.
