Some government or community leaders who have doubt about movement and hesitate to practice 3 days ceremony and follow True Parents; after they completed 4 days seminar; they become faithful, full of conviction and love toward True Parents and want to complete 40 days separation and 3 day ceremony as soon as possible. And they have determination to transform themselves, practice True Parents' teaching, to create better relationship with their spouse, children, make their families become Ideal Blessed Central Families and make their communities to become Ideal Blessed Family Communities.

Mrs. Sudarat Supho, Baannapoo village no. 18, Kaedam district, Mahadarakram province: I realize that FFWPU wish all people to love each other. This time I have learned about True Parents that in order to become the same with True Parents we should love our spouse only with only one heart, absolute fidelity and loyal to our own spouse and never betray each other. Be a good example toward children. Father and mother Moon teaches us if the most valuable thoughts to all humankind. Teach us to share and help each other and know how to give to others.

I felt so much inspired through Dr. Yong that he had shared about love of mother and child that had escaped from war to hide under the bridge that was very cold as it was snowing. The mother has delivered baby at that time. Mother had sacrificed her cloth to cover the baby until she died then a couple has found baby and took care that baby until he has grown up and came back to the tomb of his mother which I was so touched by this story until I was cried.

I have determined to change myself as much as I can by starting from myself my family and expand to society and nation. This seminar had given me so much inspiration for the greatest giving from Father and Mother Moon without any expectation in return. I will bring this knowledge to share with my family and be good example for others in other villages and towns for them to understand this thoughts in order to build warm society and unity. I have given all my heart for this seminar.

We all have tough heart, selfish heart, arrogance heart, the heart that had no love. This seminar taught us to give and sacrifice first and we should be grateful to our family and our community. Giving without expectation anything in return but finally we can receive love return from all things and people that we have given.... Thanks

Know how to give love to everyone even to enemy. Know how to give to others without expectation, living for the sake of others starting from ourselves and expand to society and nation. I felt so impressed with the greatest sacrifice of Father and Mother Moon that they have given without expect anything to return. I will apply this knowledge to my family and become good example for others, other families, other villages, towns for them to understand this teaching and help each other to build warm society and peace on earth....
