

FFWPU Thailand's 21-day Unity with True Parents Hyo Jeong Family workshop

Kamol Thananopavarn

May 10, 2024

We conducted a 21-day workshop under the theme "Unity with True Parents' Heart and Become True Owner of Cheon Il Guk" from April 20 to May 10, 2024. We had 25 participants, including 15 second-gen, 3 blessed families, and 7 youth.

First, the trainees studied "True Parents' Value and Stature", then we all had a chance to study Divine Principle deeply in detail together with small group discussion, and lecture practice. Then, they went out to do fundraising Training to apply the principle into practice on the front line. After that, they spent time for 2-day learning about True Parent's Life Course deeply in detail they felt the experience of life-changing transformation within themselves when they reflected on their front-line mission with True Parent's Life Course.

After that they receive guidance about the purpose of life of faith, formula course, challenging program for raising up spirit of leadership, listen to sharing from Thai HJ UPA cadets and come to understand and experience Witnessing Program. They also joined Cheon Shim Won Night Prayer regularly.

Through this workshop, they receive powerful vision, wisdom, and experience to unite with TP and become True Owner of Cheon Il Guk

Reflections

Benyapa Kaewlamsak, a second-gen 18 years old:

"Throughout the workshop, I feel I can learn about True Father and True Mother's life course more which is deep and impressive content for me, as well as the historical figure in God's providence which we can have chance to learn in detail deeply. Many detailed understandings that I never knew before in each era of God's providence which I have had many questions in the past, but this workshop helped me become clear and understand much more than before.

Also, we can train and develop our minds and body by going out on front-line fundraising mission for 3 days. I feel so grateful that throughout these 3 days, it helped me grow up so much and I can learn about God's heart and True Parents' heart. We can learn about True Parents' life course by doing this public mission. I feel every time I participate in such activities, it helps me to grow and develop myself to higher level."
