

Georgetown, Kentucky Family Church's FFWPU Peace Road USA 2020 - Part 1

Joe Willett
August 7, 2020

It is so amazing how God is working behind the scenes!!

When we came down to Lexington to start our Peace Roads 2020 event in the downtown area of Lexington, it looked almost deserted. The atmosphere seemed very bleak.

It reminded me of a scene in a movie of a big west coast city whose population was gone because of radiation poisoning.

There were some homeless people and somewhere acting very erratic. Once in a while a business man might walk by. Everyone is afraid of the pandemic.

All of the people and ministers we invited did not show up so we went ahead with praying at the historical marker where Slaves were being sold behind the courthouse.

We finally met some people whom we talked to about Mother's memoir and our Peace Road event. We explained to everyone we met about True Mother's book and her big speaking engagement tomorrow.

We prayed for those who died and are imprisoned by resentment, especially those who are sold as slaves and the slaves sold right here behind the Fayette county court house in Lexington.

We went over with our Peace Road flags to see the Mayor and the Chief of Police but no one was allowed into the government buildings because of COVID 19.

We went over to Main Street where more people might be. We set up at the memorial monuments to the police and firemen who have died in the line of duty.

We put our flags up around the monuments, It's still seems strangely quiet, but then more people started to come by and the ones who stopped to talk, many of them expressed support for what True Mother was doing and they were very interested in True Mother's Rally of Hope.

There was a sheriff across the street who was watching us. We came over to her, I introduced ourselves. We told her about our Facebook sight, (First Responders, Pray for them.) We told her how we visited all 120 counties in Kentucky to Bless and pray for their first responders. She was very grateful to hear that and very positive about True Mother's Book and her Speaking tomorrow.

The officer was very inspired about True Mother's activities and her rally of hope event! The more we visited people the more the spirit of the day completely changed.

We got very positive responses from visiting friends who were blessed in the 430 blessing.

Sun then wanted to go to Nicholasville KY. To one of their Fire departments.

We opened with the same approach that we did with the sheriff and they were very positive to hear about Peace Road activities.

This reminded me of how the 165 blessing got started In Georgetown Kentucky. It seemed like an impossible, hopeless thing to do but we kept going at it.

We invited many couples to a blessing dinner we were having in Georgetown at a youth activity center. We bought all the food. Reverend Wolley and some members came to help out from Louisville.

We had prayed and worked very hard for this, But nobody came, not one couple. Everybody was looking very forlorn and depressed and nobody knew what to do.

Sun got into a fiercely desperate prayer with God. Then she received the message, Go to their homes, give them their dinners and bless them. Rev. Wooly drove her. When they got back it was late, almost dark out.

In that time they had blessed six couples. It felt like a victory but it seemed to me to be a very small one. I didn't think they were even going to report this to Father. But Father wasn't looking at it that way. I was really surprised when I heard they reported to Father and he declared, " That is the way do it!"

True Father does not look at the external part of the offering. I felt as if I was just beginning to learn. Even if you fail you still get to share and Gods 6000 year old heart of restoration. Be grateful and keep bearing the cross, he will know and cherish your heart.

God is blessing America through True Mother, We must do more to help her.

Joe + Sun Willett

This reminds me on the vision that Sun had. Sun was with many other members and doctor Kim. Everyone was working very hard to put in a brick foundation for a massive building. They all were working very hard but still it was just the very beginning of the foundation.

Then everyone was having lunch together and Sun looked upwards. She saw Father And he was almost a 1000 feet tall! Father was putting the finishing touches on the roof of this massive building that we had just started working on. Our offerings often look or feel pitifully small but they are still very important to God and True Parents. It is because of that small offering of heart inspires and even compels God and True Parents to act and achieve things that we can't even imagine!
