---

At last, the long wait is over. Our National Leader, Rev. Julius Malicdem, finally made it to Japan to talk to the members about the current providential activities especially the intensive efforts to help the victims of Typhoon Yolanda in the Philippines. The program for that day was divided into three parts:

A. Report about the Philippine Providential Goals and Activities

B. Sunday Service Message about the 12 Spies in My Heart

C. Inspiration about the Life of the Three Great Miracles

Note that parts B and C of this report will be covered occasionally elsewhere. It will be elaborated more perfectly when we have a copy of the presentation itself from Brother Arnold who is now formatting the data in the USB for this presentation.

Our National Leader specifically commended the efforts of brothers and sisters in Japan who have continuously supported the Philippine providence. He singled out our collective efforts to pay most of the expenses for the building of the National Cheon Jeon Geong or the Philippine Headquarters. We are saving a lot of money now because of this physical development.

These are some of the very important points he elaborated:

1. Dr. Chung Sik Yong has always emphasized devotional reading (Hoon Dok Hae), sharing and prayer in the morning. Jeong Seong conditions of indemnity are very important in our life. We actually create an indemnity bank of Jeong Seong Conditions when we do more. Satan cannot attack us when we have an indemnity "bank" that can "pay him" when we offer conditions of indemnity regularly on our own.

-The format of the devotional reading at Hqs is: 30 minutes - individual reading for everybody; 30 minutes for a reflection or reflections of one or more members chosen by lottery; prayer and internal guidance by Dr. Yong or the leader-in-charge. We can also do this in our respective families even when we are busy because we can always shorten the time. Hoon Dok Hae is very important for education and unity of children and the family.

2. It is easy to accomplish 430 blessed couples if you start witnessing to three people. Just as True Father has done, start with three and then branch out from these three spiritual children or blessed couples to make 430 blessed couples who have finished all the seminars, the blessing, the indemnity and the 3-days ceremony.

3. The National Seonghwa of Jun Estoce was a direction from True Mother. It is the first National Seonghwa whose calligraphy for Jun Estoce was signed by True Mother. His sacrifice was at the right time and place. Days before that members thought he would die from a physical ailment. One lesson here is we have to die at the right time and place to be given a Seonghwa of this greatness, Rev. Julius said. It does sounds like a joke, but this is true.

-Jun Estoce's body was found where Delia was found alive. Delia had a dream about him. Jun's body was buried together in the same spot where others were buried, too. They placed a marker on it so they can exhume his body and move it to a better place when everything has normalized.

4. Philippines was asked by True Mother to prepare 10,000 missionaries for the world. People after Super-Typhoon Yolanda have become spiritual and easy to witness. This has never happened before in big numbers. There are so many of these kinds of people now.

5. We were also asked to send Tongil Moo Do missionaries to other countries. We now have Tongil Moo Do missionary graduates from IPLC in Korea, New Zealand, Malaysia and Nepal. Many countries are waiting for missionaries from us. Other nations are following our example like Thailand, Taiwan, Indonesia, etc.

6. Edgar Tanate is now the official National Leader of Indonesia. His appointment became official after he successfully organized and conducted the 120 Ministers Inter-Religious Conference for Peace last December 16, 2013.

7. Rev. Dr. Yong said that even ordinary Philippine members are very productive in other countries.

8. We are continuing our campaign to raise funds and support the victims of Typhoon Yolanda and 7.2 Earthquake in the Visayas. We have used all our financial resources to mobilize for this in addition to our mobilization and preparations for the January events: The Interfaith Peace family Blessing of 13,000 people to held on January 11, 2014 and the Interfaith Peace Conference on January 10-11, 2014 at the Philippine Cheon Jeong Geong or Philippine UM Headquarters.

9. Philippines need the financial support of FilJap FFWPU members or commando members in Japan especially now that most of the money have been used for Typhoon Yolanda mobilization.

A memo about this will be release soon so please wait and prepare the money so we can contribute to the accomplishment of January 2014 events.

Please know more of this report in the notes hereunder. I will arrange and annotate them on the blog later and I will inform you about it when it is done.

Thank you.

---

## **The PROGRAM**

Community Holy Songs

Family Pledge

Opening prayer - by Raffy Ablong

Welcome Message - Bro. Arnold Herais

Introduction to National Leader - Kuya Dante Negre

Report about the current situation, projects and activities of UM Philippines -

by Rev. Julius Malicdem

12 Disciples

The Three Great Miracles of Our Life

---

### **Opening Prayer by Raffy Ablong**

Thank you for this important and meaningful visit of our NL. We have been waiting for his coming and now that he is here, we implore your Divine Presence to be with us all. Open our minds and hearts so we can easily resurrect ourselves by the power of your words and Holy Spirit.

Our National Abel's coming is so significant to all of us especially that he comes after a few natural disasters that have totally devastated almost 2/3 of our country. He comes after thousandths of people have died, millions of people left homeless and physically traumatized and unknown thousands still languishing or recovering from death and destruction, loneliness and emptiness. He also comes after the massive support and efforts of our True Mother and the whole of the Unification family to alleviate the plight of the victims and to fill in the emptiness with the power of your love and blessing, grace and forgiveness. So that once again, we can continue our journey of service, unity and progress, under the guidance of our Heavenly Parent and True Parents.

He comes to remind us of our eternal bond with you, to strengthen us internally, to Reinforce our commitment to continue our efforts to build the heavenly nation on Earth, the nation of Chun Il Guk. We hope that his report about the present dispensation and providential events in the Philippines will make us even more connected and concerned for each other's safety and success, health and happiness in life with Heavenly Parents and true Parents.

Please be with us this day HF and let our uniqueness -- unite us, our differences to strengthen us; our

creativity and initiatives to enrich us, and; our inter-dependence and collaboration to multiply your blessing and love to other people.

I pray all these in the name of our blessed central families. Aju!

---

### **Eastern District Leader - speech -- Bro. Arnold Heramis**

Introduction to the National Leader – Kuya Dante Negre - Japan Regional Director

Sunday Service Speech by Rev. Julius Malicdem

Offered 6 events in January

2013 is the first year of CIG

Unprecedented events occurred as mentioned by True Father before he went to spirit world

There are 43 strategic and providential countries. In Asia, we have Thailand, Indonesia, Taiwan, Thailand, Malaysia and the Philippines

These 43 nations are leading the providence, TM is always praying for these nations. Philippines is the no. 1 in Asia. Philippines has a strategic and providential foundation. True Mother has always told us, we don't have enough time.

Showed the:

1st video showed a video report about Malaysia, the Philippines, Nepal, India, Thailand, Taiwan.

2nd video is about the Philippine Report by Rev. Julius Malicdem

We need VIPs who are owners of the CIG. Maj Gen Cayton is a model VIP, he finished 7-days DP, finished 3-days ceremony, blessing, he experienced offering 400 full bows. He knows True Parents well.

Headquarters is doing a lot of conferences for VIPs, weddings, banquets, etc.

This is the legacy of Filipino-Japanese couples in Japan the Philippine Headquarters. This legacy can never be erased.

We have a lot of associate members who are not giving tithes, not attending Sunday services, and even not having 3-days ceremony.

We are now launching projects to do this mission of educating these members. We have to raise the life and existence of our members.

So many things are happening. God is doing a lot of things at the same time. We also have tribal messiah activities and activities for students, parents, and professionals.

Even all the 24 HQS staff members are also doing witnessing. HQS created 2 witnessing groups for its HQS staff each group has to go out for 2 hours witnessing.

Witnessing is reviving the spirit of the new and old members. We need to go back to our roots centering on reading of God's words.

If there is a prepaid card, we need prepaid conditions -- just offer and do conditions so when you need conditions to accomplish it, you already have an indemnity bank where you can withdraw your deposit.

How to make Hoon Dok Hae interesting and exciting:

1. Kyungbae 2. Prayer 3. Everybody reads for 30 minutes with voice, 4. Reflection by lottery -- this is something very spiritual 5. Internal guidance by Dr. Yong (Father or Mother of the family)

Hqs hold two batches of Sunday Services called New Life Fellowships from 5:00 a.m.

Use Sunday service as a means to educate witness to new members. More singing with a band, brief sermon in Tagalog, participants of the Sunday Services are gradually increasing -Bringing in new guests also inspires energizes new members, there is always excitement. Ask the new guests to stand up; it is a healthy competition; we do it 2x a month.

Other nations are trying to follow our example, Thailand! Taiwan, Nepal

Formation of Disciples and witnessing Team

Combining the groups of young people in a fellowship with a band.

### **MOBILE Witnessing**

Helping the tribal messiahs educate the members. Ideally, one tribal messiah center in every village. We now have one tribal messiah for Marikina, Tatalon, and Araneta

Now education for the blessing is reversed. We witness and bless them, then we educate so that they can become the standard blessed couples or families.

We are using the blessing to witness directly, after the blessing they become core members,

We need to do the TANG GAM [Indemnity Stick] ceremony right after the Blessing ceremony now. It has become an exciting for the couples. The way the tang gam ceremony is made interesting

The Second Generation is gradually leading the church

New blessed couples are educated through Hoon Dok Hae

Even the Orthodox Catholic Church is also doing the blessing, the tang gam ceremony

Archbishop de Jesus (Orthodox Catholic Church) shared his reflection of his couples 3- days ceremony about 1st day, 2nd day, 3rd day --- picture report

Apostolic Catholic Church joined and did ahead

UM explained to them the strategy to get 430 couples in their congregation

Rev. Young has started doing PASALUBONG, the Philippine way.

NO Vision, No money, no honey

IPLC is training missionaries, we are also helping other countries I

Without Philippine TIMD, TIMD [Tong Il Moo Do] in the world will not expand that much

To have more TIMD missionaries. Witnessing thru martial arts.

Korea is asking 40 instructors, New Zealand is asking 14 instructors,

Other countries re sending their students to IPLC

Gina de Venecia and Speaker Joe de Venecia pledged before True Father's tomb to fully support Unification Movement

Some of the activities that were done this year:

Public confession of couples through the 3-Day CIG Blessed Couple Enrichment Workshop

President of the Association of Generals and Flag Officers, Major General Santiago

True Mother called Rev. Yong on November 8 (Typhoon Yolanda day) to ask about the well being of Philippine members

True Mother directed Rev. Yong to produce 10,000 missionaries for the world.

Edgar Tanate is now officially the national leader of Indonesia. He organized the 120 Ministers of Indonesia. Philippine members are very good in other countries

The path of the 7.2 intensity earthquake and typhoon Yolanda is the area where blessing events were done

Noli Alejandro was the person who was the first person to get a video of the devastation in Tacloban. His video was used as a communication device from the airport

True Mother decided to have National Level Seonghwa for Jun Estoce Jr who is considered a senior member of the church, who offered his life as a sacrifice for the nation and the world.

True Love in Action Tulong-Tulong sa Pagbangon is not a one time project. We want to sustain the efforts to help the stricken areas

Many people died because of the water of the storm surge.

Everything happened for a purpose. The environment is prepared for witnessing. People get easily interested when you talk about the spirit world, about life and death. This is the experience we have now externally. God is preparing the environment. God can give more blessing to our nation because of the suffering of our people. There is always a blessing after an indemnity. The calligraphy for crisis is made of two words or characters, danger and opportunity.

A good strategy for witnessing top military VIPs or any VIP for that matter is to invite the wife. The wife is the general's general.

Our death should also be on time and should be in the right place. Make our death meaningful and purposeful for God.

Right now, Nepal is successful on the political side, Taiwan on the social side, Philippines and Thailand on the interfaith and religious side.

Catholic Church in Taiwan is now working together with us to oppose same sex marriages. Spokesperson of the All the Religious Group Anti-same sex Marriage Opponents is a hardcore Unification Church member, Dr. Sang.

Let us make our nation, a nation of filial piety. Nobody can stop us from becoming true sons and daughters of God for the world in this nation. Not even a super typhoon or earthquake. We will continue and we will go on and on...

Only Japan commando is left to support the January 11, 2014 Interfaith Peace Family Blessing. About ¥100 000 per family.

## **2nd Part**

### **The Life of Divine Principle**

#### **The Twelve Disciples in My Heart**

##### 1. Faithless Report

##### 2. Saw Negativity over Positivity

Analogy of a glass half-filled with water

How do you look at the devastation by Typhoon Yolanda?

##### 3. Reality over Faith

It is like the arm of the pendulum, when one side goes up, the other side goes down. (Same for faith and reality)

The Chinese style is not to say yes or No first, they think. Filipinos will say yes first before thinking realistically about it

Filipinos rely too much on God or the spirit world. Sometimes humanistic viewpoint is very much different from .. Too much reliance on reality.

##### 4. Fallen -- only see reality

5. See only based on humanistic viewpoint

### **The Attitude of Two Spies**

1. Faithful report
2. Saw positivity over Negativity
3. Faith over reality
4. See things from God's viewpoint
5. Attitude duely reflects what we believe

People in Singapore feel that children are obstruction to their success

Philippines is our mission country. Japan is our mother country.

We are all central figures in history. We are standing as modern tribal messiahs. Blessed families should not forget that we are God and True Parents' sons and daughters. We are central figures in God' Providence.

### **How does God use trails and difficulties**

1. To give us direction... To send us a message -- Proverbs 20:30
2. To protect us

Sometimes a problem is a blessing in disguise

Satan does not like to sacrifice. So sacrifice separates us from Satan.

### **The Life of the Three Great miracles**

New ideas seen:

1st miracle - Power of God's words Do Hoon Dok Hae every day -- have to do a lot of Hoon Dok Hae

Meditate on the words like cows Ruminates on the words -- 100x-- thousands of times to make us live on the words

2nd miracle -- meditate on God's word

3rd miracle -- you need to breath in your soul God's word

God's works give us life

3rd Miracle -- Witnessing

### **End of notes**
