On November 30th, our regional leader from South Europe came to Madrid.

On Saturday morning we had a meeting with responsables from different areas: Armando Lozano, Mario Magaz, Manuel Campillo, Chigako Moriyama, Artur Beshaj, Stefan Campillo, Enrique Sanchez and Marcia, Miguel Calvis and Maryvonne.

The question was our goal for 2020 : How Spain can know about what our movement is doing?

We had a good discussion, beginning by knowing and understanding where we are, how can we do more to reach society and also especially how our young people can take ownership of the Providence and through this, experience God more deeply through True Parents.

After lunch we prepared for the blessing event we had organized in an hotel nearby. Giuseppe gave some congratulatory words.

On Sunday morning he gave us the sermon in our Sunday service: "Defeating the leviathan" going through the history of Europe especially the 400 years of preparation for the coming of Messiah.

We are very grateful for his visit and the guidance we received from heavenly Parent and True Parents through him.
