Dear True Mother

I am deeply grateful to give you my humble reflection about the special workshop you have guided and organized in Zambia, East Africa Region. I am sorry that I am taking your precious time to read my reflection

The purpose of the workshop was to empower blessed central families to become successful heavenly tribal messiahs by blessing 430 couples, then on that foundation restore the nation of Cheon Il Guk.

First of all I am deeply sorry, it took me so long time to know how to respond to your call and align myself, as a filial son, to your Vision of building the nation of Cheon il Guk. Now I can feel how much difficulties and inconveniences you have encountered because I did not understand clearly your call to fulfill my responsibility.

Nevertheless, you never stopped loving, guiding me to become a better and better filial son. With your wisdom you brought light and new life to me and to many African blessed central families. Sincerely, I thank you from the bottom of heart.

About the special workshop I would like to share some background based on my own understanding.

Since the proclamation of the project of vision 2020 for the restoration of the nation, my belief has always been, in order to restore the nation, I must become a victorious tribal messiah and extend the victory to other families. Unfortunately, I did not know how!

Mother when you asked me, on September 3rd, 2015 in Cheong Jeong Goon, how will I restore a nation by 2020; my answer was this.

1. Through tribal messiah activities which I strongly believe in.
2. Through educating the leaders of the world, namely our ambassadors for peace.
3. Through educating the second generation and the youth.

I concluded I would like to go to Asia and learn about their tribal messiah successes and apply it to East Africa.

With your blessing I arrived in the Philippines on October 12, in the evening. When I arrived at the headquarters, I was warmly welcomed by Dr. [Chung Sik] Yong, the Philippines leaders and the bright spirit of young people from top gun workshop.

The next day, the Hoon Dok Hae service conducted by Dr. Yong was amazingly deep. I got a sense of liberation in my heart. It ignited my heart to become a better filial son who seeks to attend our beloved True Parents. After that I went to some briefing about tribal messiah activities in the Philippines.

I visited the International Peace Leadership College which represents a great foundation that True Mother has established in the Philippines. I was impressed and touched by the foundation total dedication to educating young people to become Cheon Il Guk leaders. I met many international students, very ambitious and determined to become future world leaders centered on True Parents. The same day I had a chance to visit a tribal messiah center. This is the center where one blessed central family is leading many blessed family coordinators. This central blessed family has blessed thousands of couples. That was also an amazing and inspiring experience. I wondered how one blessed couple can bring this great providential result. I really felt without True Parents working with them, they could not bring such an amazing result. I asked the central blessed wife, what did she do to witness to that many people. She told me, she simply shared with the couples the blessing she received from Heavenly Parent and True Parents, and the people responded. I was so shocked about her great faith and sincerity. I learned that my lack of results is in reality my lack of faith and sincerity.

The 3rd day, I had the opportunity to attend the blessing in Infanta; that experience opened my eyes and heart to the great blessing that the Philippines has received from our True Parents, I met a young couple who has given blessing to leaders of their community. They were blessed 3 years ago. They were able to bless 4000 couples.

My original plan was to stay in the Philippines for 10 days, but I ended up staying for only 3 days. The reason for that is True Mother commissioned and sponsored Dr. Yong and Rev. Julius [Malicdem] to go to Africa to share their tremendous blessing and way of success with the African leaders. Once again I felt so grateful to True Mother. Because True Mother knew the African leaders can inherit the success of Asia with the true heart to restore one nation.

On the 16th of October, I left Manila and arrived in Zambia on the 17th of October to prepare for the workshop. Dr. Yong and Rev. Julius arrived on the 19th of October and the workshop started on 20th of October.

On my way to Zambia I strongly felt that we would need a special national condition like fasting to support the workshop. When I arrived in Lusaka, in Zambia, I was received by the national leader who gave me a briefing about the preparation for the workshop.. He told the next day, October 18, was declared by the president as a day of repentance and fasting. In fact, on the 10th September, almost 40 days before the day of repentance, the president of the nation made the declaration. On the day of repentance this is what the president said: "On this 18th day of October, 2015, I Edgar Chagwa Lungu, President of the Republic of Zambia, wish to thank the almighty God for allowing us to assemble and observe a national day of repentance, reconciliation, prayer and fasting."

I was shocked by the fact that the whole nation could do such a condition just one day before Dr. Yong arrived to start the workshop. I truly believe that Heaven Parent and True Parents have been behind this workshop for long time. I felt True Parents prepared this workshop long time ago.

I recommended all national leaders and other leaders to join the national condition repentance, reconciliation, prayer and fasting, in order to offer the nation to Heaven Parent and True Parents

Regarding the workshop itself, there were 80 participants from 7 countries in our region (Zambia, South Africa, Mozambique, Zimbabwe, Malawi, Burundi and Botswana).

In the first lecture of the first day, Dr. Yong talked about what happened in Asia and what results they have achieved. The next two lectures were given by Rev. Julius; he explained how they have worked as tribal messiahs and how the spiritual conditions were made such as reading the Divine Principle a 100 times, having a strong Hoon Dok Hae tradition and having established 167 holy grounds in the nation of Philippines.

We were all amazed by the presentations. We realized from that day it was possible to restore a nation by 2020. It depends on us offering the appropriate devotion, being aligned with True Mother and having a heart of gratitude as filial children.

The next day, which was half day, the lecture was given exclusively by Dr. Yong, on the reasons why we should do the tribal messiah mission.

1. For the salvation of one nation
2. In order to realize the Family Pledge No. 3 For the completion of 4 great realms of heart, 3 Great Kingships and the realm of the Royal Family
3. In order to complete the 7-year course
4. In order to uproot the 4 Great sins
5. In order to inherit the victorious formula course of True Parents
6. In order to fulfill the 5% of portion of responsibility of humankind
7. In order to enter to the realm of the direct dominion of God

Listening to Dr. Yong explaining those 7 reasons why we need to do the tribal messiah mission, we were flabbergasted. He explained the 7 reasons with such a big heart, passion and conviction using True Father and True Mother words about the tribal messiah mission. All the participants were totally silent. I felt personally deeply sorry and ashamed for not knowing who I am as a blessed central family. I realized through True Parents words shared by Dr. Yong, I am not qualified to be called a son of True Parents. The reason is I felt that my heart as a filial son is so poor; my result is so poor; even my vision was not clear. I felt deeply sorry to Heavenly Parent and True Parent.

In the same time I felt and saw a great hope. Because I realized that True Mother forgave and loved us, as long I take responsibility with the heart willing to die for the will. Truly, Mother I am determined to be a victorious son, not a failure.

In conclusion, I will take responsibility to restore the nation, so True Parents could live peacefully. From now on this is my total determination. I will make sure that this fire that has come from Asian to Africa will never die again I will make sure that we, as blessed central families in Africa, will restore a Cheon Il Guk nation by 2020 I will create a model course here in Zambia were there are lots of foundation made by you Mother. Then I will expand it across the region.

Mother, we have a strong foundation here in Zambia with tribal leaders, Christian ministers. Ambassadors for peace, even former premier ministers.

Our blessed central families also have been resurrected by this workshop. They want to go right away on the front line in order to fulfill their tribal messiah mission; witnessing, educating and blessing couples. Youth and second generation are very excited, they want to fundraise and buy a small van for witnessing activities

Mother your love has come to Africa as a typhoon from Asia to Zambia (Africa) and nothing can stop it, AJU!
