Protesting Motions That Defame and Discriminate

On the afternoon of 10th November 2024, the Association of Fukuoka Prefecture Residents for the Protection of Fundamental Human Rights and Freedom of Religion held a protest march around Kitakyushu City Hall. The protest was against the government's request for the dissolution of the Family Federation for World Peace and Unification (formerly known as the Unification Church) and the Kitakyushu City Council's declaration to cut ties with the group. Approximately 150 followers participated, appealing to the city council and citizens against religious hate.

Testimonials

"It was actually amazing! Everyone was like naaaah I don't wanna sing. But a looooot of GPA realized they misunderstood what this Masterclass was... The first day, one by one, the entire first row was hit hard by the Holy Spirit. People that don't even sing starting crying while we were singing Revelations 19:1. Something came over GPA and it was goooooood. It wasn't even singing at that point. It was just resonating with something higher... I feel like I finally found my purpose... I knew God needed me to be a messenger. But my words were never enough to express what my heart was conveying. But I feel like THIS is what I was meant to do. This is how I'm supposed to testify. And it feels so right... I don't wanna sing. I wanna testify and offer God the power to work through me. I'm not satisfied with just singing beautiful notes. I wanna witness with this voice! Ajuuuuu."

- Desiree Contreras, GPA Music Masterclass

"It is the morning of the HJ music competition, and we are in a bus, making the long trip from Seoul to Cheongpyeong. I am surrounded by young people from across America, all of whom are dedicated, both in their love for music and their love for God. Mother, these past 5 days of practice have really taught me a lot about the beautiful mindset of our director, and all the other Christian ministers and performers that we are working with. Everything that they do is to bring glory to God. In their hearts, in their minds, they are fully focused on how their performance would bring God the most joy. We ourselves are inheriting that mindset, and want to express our unity and happiness for our Heavenly Parent. Mother, we've only been able to practice together for these 3 days, but in these days, I have felt immense joy in being able to perform for you, and being able to show the world that living together with our heavenly parent is a source of pride and strength. Through our smiles and laughter we can bring smiles to God's heart, inspiring other people to include Heavenly Parent in their lives. There is incredible energy from the unity of 30 voices singing together in harmony. I believe that music was meant to teach us how to live together, how each person has a unique role, but all of them working together is vital to the harmony of the whole. When we work together it is beautiful and joyful, but if even one person disunites, the harmony loses its power. This is somewhat like principle, our world needs every person in order for us to harmoniously fulfill God's dream. So with our song,

we hope to inspire others to join us, in unity and harmony. People from all nations, backgrounds, religions, we can unite if we focus all of our glory on God. By gathering and moving the hearts of all people, we can bring our Heavenly Parent joy at last. Mother, we hope that when you watch us you can smile, and feel that your children are here to support you, uplift you, and unite with you to help restore the world.”
