Sustainability Starts with Me Campaign by HJIFEP

SUSTAINABILITY STARTS WITH ME

Many greetings from the Hyo Jeong International Foundation for Environmental Peace ([HJIFEP](#))!

This holiday season, we reflect with gratitude on the strides we made together this year. From removing invasive plants during Earth Day Month in April to taking part in the Environmental Summit in June, your commitment to our planet has been truly inspiring.

These achievements remind us that sustainability starts with each of us. As we prepare for the year ahead, we invite you to continue shaping a brighter, greener future with us.

From True Mother's words, "We can only take dominion or stewardship over the natural world when we ourselves come to embody God's love."

How You Can Be Part of the Change:

- **Share your ideas** for impactful projects in 2025.
- **Share your story** of sustainability for a chance to be featured in *The Earth & I*. Submit your story to info@theearthandi.org
- **Support our mission** to spread hope and knowledge by donating today.

Together, we can amplify our impact and inspire more people to join this movement.

Loving Nature, Healing the Earth

True Parents envision a world where human beings live as one global family, based on the values of interdependence, mutual prosperity, and universally shared values, relating harmoniously to the natural world as was originally intended by the Creator. The HJIFEP is committed to healing the Earth by researching both traditional practices and cutting-edge scientific approaches, promoting human-nature unity, and initiating meaningful environmental projects. We can make a difference together! Donate on the link below.

The request came from someone active in defending religious freedom, who mentioned that they were affiliated with the *Family Federation for World Peace and Unification* (formerly the Unification Church) and wanted permission to use the video.
