Re.: Announcement of True Parents' Special Instructions on the Wording to Conclude Prayers

May the blessings and love of our Heavenly Parent and True Parents always be with you.

At 8:00AM on 1.3 by the Heavenly Calendar in the 13th year of Cheon Il Guk (January 31, 2025), True Mother, who has returned victoriously after furthering the providence in the Heavenly United States, gave special directions regarding the wording with which we should conclude our prayers.

On New Year's Day of the 13th year of Cheon Il Guk, as the time approaches for the victorious entrance into the Cheon Won Gung Cheonil Sanctum—which reflects the completion of Heaven's providence and the culmination of human history upon the foundation of the firm settlement of Cheon Il Guk—True Mother, the Only Begotten Daughter who has come for the first time, has opened an era of great grace where we live attending Heavenly Parent substantially.

And so that all blessed family members, as true children of Cheon Il Guk united with True Mother, can fulfill their responsibility within this realm of loving grace, and pass on Heavenly Parent's blessing for generations to come, True Mother gave new directions on 1.3 by the Heavenly Calendar that we should conclude our reporting prayers with the words, "I pray with gratitude in my name, [name of person praying], of a blessed central family attending our Holy Mother Han. Aju."

Accordingly, we request that all regional headquarters, subregional headquarters, churches, and providential organizations worldwide notify all blessed families, members, and public leaders of the Family Federation to implement this conclusion to our prayers, in accordance with these special directions.

True Parents' Special Directions and Message

On January 31, 2025 (the 3rd day of the 1st month in the 13th Year of Cheon Il Guk by the Heavenly Calendar) at 8:00 AM, True Mother gave special instructions at a leaders' meeting at Cheon Jeong Gung that we should conclude our report prayers with, "I pray with gratitude in my name, OOO, of a blessed central family attending our Holy Mother Han. Aju." Cheon Mu Won has organized True Mother's words from that day as follows, to be shared with continental headquarters, regional headquarters, churches, and blessed families worldwide:

- All prayers should be concluded by saying, "I pray with gratitude in my name, OOO, of a blessed central family attending our Holy Mother Han. Aju." This is for all blessed members worldwide."
- To create One Family of Humankind, we must become one with Holy Mother Han at the center. That is why I made this announcement in Las Vegas on January 20th. The members of the Golden Cranes Club in America were overjoyed, clapping enthusiastically.

This present era requires that all blessed families who are united with and attending Holy Mother Han must fulfill their responsibility. The era of praying in True Parents' names has passed; now we will use "Holy Mother Han." Especially in this 13th year of Cheon Il Guk, Holy Mother Han is at the center for attending Heavenly Parent on earth. Both through Christian civilization and through the Epic History of the Chosen Han People of Korea, this is the era when the previously hidden existence of the Heavenly Mother is being revealed, thereby finally establishing a global order to support world peace and One Family of Humankind.

- Our Creator, Heavenly Parent, made all things in heaven and on earth resembling the Creator's own image, finally creating a man and a woman who would become the first ancestors of humankind, and giving human beings the responsibility to complete their growth to maturity. Heavenly Parent then waited for human beings to reach perfection through their own effort. However, they could not fulfill this, and the result is today's fallen humanity.

The Creator must see the Creation through to completion. Having begun, it was not possible to simply leave things as they were. Thus, Heavenly Parent carried out the providence of salvation through the chosen people of Israel. When the process of working through central figures did not go smoothly, indemnity had to be paid to continue moving forward.

That is why, after passing through 4,000 years of the history of the people of Israel, Jesus Christ, who was said to be “conceived by the Holy Spirit,” was born—but why did he have to be born in a stable? Three wise men from the East came, following a star. Actually, Mary's responsibility went beyond just giving birth to Jesus. She needed to understand Jesus' essence and create an environment where he could work as Heavenly Parent wished him to. But Jesus spent 30 years as a carpenter's assistant.

Mary should not have married Joseph. How is it possible that there is no record of Jesus' birth, when Mary likely was not an illiterate woman of her time? The reason for this remains unknown. Finally, because Jesus could not wait any longer, he began his public ministry, which lasted three years; yet ultimately he was put to death on the cross. Before dying on the cross, he said “I will come again.” Christianity was started by Jesus' disciples who were resurrected through the Holy Spirit after awaiting the return of Jesus, who had promised to come. Why is it that Jesus said, “I will come back”? Christians should have thought carefully about this. Yet thinking only from the perspective of Jesus having been a man, they came to the simple conclusion that “Jesus is the only begotten son” and “the body of believers is the bride.”

Christianity's 2,000-year history has been male-centered. But the essence of Jesus, the essence of the Creator shows that the principle of the universe is one arranged in pairs. If there was an Only Begotten Son, it means an Only Begotten Daughter must be born. However, although the people of Israel brought the Only Begotten Son to be born, what followed? Indemnity followed. That's why they lived as a people without a nation for 2,000 years, wandering as refugees. The persecution they received during the time of the Roman Empire was terrible.

In spite of all that, even today the people of Israel still do not know. They do not know what their responsibility was. Christianity also does not know. The principle guiding all creation shows us clearly: if there is an Only Begotten Son, there must be an Only Begotten Daughter. That is why Heaven had to establish a people who could give birth to the Only Begotten Daughter. That people was the Han people of Korea. The Only Begotten Daughter had to be born among them, in a Christian environment. If you look at the Epic History of the Chosen Han People of Korea, you will understand that they are a special people.

Prior to World War II, American Presbyterian missionaries in Pyongyang brought about works of the Holy Spirit. One of the American missionaries was persecuted by both the Joseon Yi Dynasty in Korea and also in Japan. In her final letter home, she wrote that she would remain in Korea, and ultimately she died in Korea. Her name was Ruby Kendrick (1883-1908). The missionaries who came to Korea at that time all realized that Korea was a special country. However, they did

not know about the Only Begotten Daughter. That Only Begotten Daughter was born in 1943. Heaven had to protect this Only Begotten Daughter until she grew up and could make her decisions on her own.

World War II ended in 1945. After the war, Korea was divided into two parts, one democratic and one communist. While the Soviet-centered North was preparing to invade South Korea, the South had not yet established a cohesive system. At that time, my maternal uncle, who had studied in Japan, joined the military in South Korea instead of returning to our hometown in the North. This meant that we could not stay in the North. We had to move South. Then how did at least 16 UN nations end up participating in the Korean War, with their young righteous soldiers shedding their blood for a small unknown country? That was Heaven's doing. It was for me. Heaven was giving me an opportunity.

- The dream that our Heavenly Parent has been waiting for 6,000 years to see fulfilled is that of living on earth together with True Parents. Although the situation was not good, I said "I will do it." This means that through the advent of True Parents in 1960, blessed families came to exist. And those blessed families have a responsibility that they absolutely must fulfill. You must understand this.

- "I pray with gratitude in my name OOO of a blessed central family attending our Holy Mother Han. Aju." All your prayers. Do you understand? It is Holy Mother Han. Do you know how long Heaven has waited and waited for the 13th year of Cheon Il Guk? I have walked this path alone.

- Our hope for the future lies in the 2nd and 3rd generations. As Pure Water, they must become one and advance broadly and strongly toward the wider world. Then, not only the Korean people but all nations of the world will become One Family of Humankind attending the Creator, Heavenly Parent, and the wars that are going on today will become unnecessary. All nations are brother and sister nations. They are siblings attending the Parents. We should not fight. We all should show filial piety to our parents. Your responsibility is showing filial piety. I said that this time while I am on earth is the golden age. Do you know how important this time is? I'm saying you should live with gratitude, gratitude, gratitude toward me.

- Holy Mother Han is for Christianity and for all world religions. They will all develop when they attend Holy Mother Han. They can become one. The owner of the universe is Heavenly Mother, who creates life. Without a mother, life cannot be created. When you become one with Mother, peace comes to the family, nation, and world. You are truly fortunate people. You are blessed people. How did you come to have a connection with me? With that in mind, you must go on until

the end. That is your responsibility. You yourselves must not leave behind incomplete indemnity offerings.

I said that I would establish the Hanju Hall of Honor (Hyodong Won) showing the names of all those who participated with me on the providential path in this era. These names will be remembered eternally for generations. “Our parents participated in the era when Holy Mother Han lived!”— what a position you will stand in, to receive the pride, gratitude, and respect of future generations!

Knowing everything I knew, I endured and waited because I could not damage the progress of the providence. The Foundation Day of Cheon Il Guk created the environment for Holy Mother Han to attend Heavenly Parent substantially. Therefore, you must become one with me.

- The one who brought providential history and human history to a conclusion is Holy Mother Han. In this era you must unite with me. It is the time to live in attendance to Heavenly Parent on earth by becoming one with me. The 13th year of Cheon Il Guk didn't just happen to become the 13th year.

- The center for the completion of the providence is the Only Begotten Daughter. When this nation was in a difficult period under Japanese rule, the Only Begotten Daughter was born, and as World War II ended, Korea was divided into South and North, democracy and communism. Now the path that we take to unify North and South must not be male-centered. Only when politicians, Christianity, and the people of this nation attend Holy Mother Han can this nation become the Heavenly Unified Korea.

- Until now, you received the Blessing in True Parents' names, but in this era it is the Blessing where we substantially attend Heavenly Parent together with Holy Mother Han. This era is different. You must not miss this golden age.
