Presented during the Cheon Shim Won Vigil Prayer by the World Mission Headquarters

Dear Wang Omma,

I would like to first let you know that we are very excited about this golden age as we prepare for the grand opening of the Cheon Il Sanctum in the Cheon Won Gung. All of my thoughts and actions are now absolutely focused on how to bring victory for True Mother for the entrance ceremony of the Cheon Il sanctum. Also our members are excited about the Cheon Il Sanctum as everyone is doing their best to contribute financially. This is their heart to unite and support Wang Omma.

On Dec 1st, I gave a sermon about the meaning and importance of the Cheon Il Sanctum using True Mother's words, and so many family members including even high schoolers have made a contribution and pledged to make a contribution. My wife and I were so inspired by the heart and devotion of members to unite absolutely with Wang Omma. A new member who joined just 3 weeks ago, Elijah Etta, also pledged to make a donation to support Cheon Won Gung. This is truly amazing. This is Wang Omma's victory!

I understand that you would like to see all second and third generation to participate in this upcoming Blessing Ceremony. In America, we have contacted more than 3,300 Blessing Children about the Blessing. One-third of them expressed interest in the blessing. We are determined to do our utmost best to convey Wang Omma's love and grace to all of them and create the environment for them to be excited about the Blessing.

Through the Single Blessing Campaign, we discovered that many families have difficult parent-child relationships which do not encourage the children to be excited about the Blessing. So, following the detailed guidance of Regional President Dunkley, we asked pastors across the country to encourage regular parent-child prayer and discussion, including Cheon Shim Won prayer. Those who practice this sincerely are seeing amazing results.

For example, Tetsuya Nomura Jang is a 2nd generation brother who had difficulty with the Blessing. However, he and his parents have been offering devotion in the Cheon Shim Won everyday and he also attended a 21-day workshop in the CheonBo Training Center. During the 21 day workshop, he was able to completely overcome his struggle with the Blessing and was able to find another match during the workshop. He is now happily matched with Remi Kosoka. This is another miracle of Cheon Shim Won. Thank you Wang Omma for giving us the gift of Cheon Shim Won.

The Heavenly Top Gun missionary Satori Higashi witnessed to two new members and one of them, Chiga, is now living in the CARP house, attending Sunday service and supporting many church activities. Chiga said that joining the church is God's guidance for him and he is incredibly grateful and happy. This is possible through True Mother's love for America to send us the amazing Heavenly Top Gun missionaries.

Through President Dunkley challenging us, we are finding ways to do amazing works to bring substantial results for the opening of Cheon Won Gung. All members are being activated and inspired to participate.

Dear Wang Omma, We are absolutely united with you. We understand that we are able to bring these victories because of our unity with you. We will be victorious. Please trust us!

Thank you Wang Omma!
