

## Discourse on True Mother's Revelations - Lesson 2

Demian Dunkley

April 3, 2025

Imperfect transcription by Airenæ Culvy of [www.edu.familyfed.org/course/true-mother-course-lesson-2](http://www.edu.familyfed.org/course/true-mother-course-lesson-2)

In This Lesson:

God's Original Dream

Continue to unpack the Principles of Creation and God's Plan

Reflect on the idea that it is the child that makes the parent

Explore why God's Dream has not been realized until now

### Lesson 2 - Part 2 - God's Original Dream

#### The Principles of Creation and God's Plan to Become the True Parents of Humankind

Okay, let's dive into Part 2, 'God's Original Dream and The Principles of Creation, God's Plan to Become The True Parents of Humankind'

We're going to cover a few more of the Principles from The Principles of Creation that I think are essential to help us understand what Mother's Saying.

Let's start with Mother's Words:

"God, our Creator, has a Dream.  
(Holy Mother Han - The Mother of Peace)

She said, 'God our Creator has a Dream.'

Originally, the Creator Wanted to become The True Parent of Humankind.

Heavenly Parent Created all things in Heaven and on earth ...

True Mother starts many of Her Speeches here. Starting right there. What is God's Dream? I imagine that Mother starts every day and ends every day, starts every waking minute of Her Life, Resonating, Thinking about God's Dream, Feeling Desperate to Realize that Dream, Feeling Desperate to move the obstacles, to diminish the gaps between where we are today and realizing that Dream.

So, She starts every Speech almost touching upon God's Dream. So, first, let's work backwards, okay? In order to give Birth to His Children, God's First Created and Environment for His Children to Live. That means the substantial universe was created for the purpose of human life. Think about that ...

God Wanted to Give Birth to Humanity, but in order to give Birth to Humanity, He needed a world and in order to Create that world, He needed all of Creation. To make all of Creation, He Needed to Create Centered on a Law or a Principle.

So, before He Created the Universe, God Created the Principles of Creation. And it is through these Principle that everything would be Created and maintained. And these are the Principles that govern all things.

Before these Principles were Created, there's just God. But now let's look at it in another way. God is a Spiritual Being, okay? a Harmonious Being with both Male and Female Qualities, but He Longed to Be A Parent. That is God's Dream, To Be A Parent, To Have Children and To Live with His Children in a Beautiful World.

He Longed to Have Children, therefore, with Whom He Could Relate. He Dreamed Of Becoming A True Parent of Substance, not just Spiritual but Physical as well.

In order for God to Become A Parent, He Needs Children, and not just any Children. God Needs Children that truly resemble God's Nature. In order to resemble God's Nature, we need to grow our Divine Nature, our Godly Nature. Wouldn't you agree.

You might have a very handsome 25 year old man who looked like he was chiseled by Michelangelo himself, but if that man has a heart of selfishness, of greed, of evil of any kind, you can't say that that is a representative of God, or that that person is carrying the characteristics of God's Nature, can you? You couldn't really call that person a son that resembles his Father.

So, in order for us to resemble our Godly Nature, we need to grow according to the same Principles of Creation that govern all things. Let's look at some of these basic Principles.

Every human being is both physical and spiritual. I think most of us agree, right? Every being is both physical and spiritual. And we can see that there are 3 stages of life. There's life in the womb, life on earth and eternal life in the spirit world. We do not live forever in substance. But we do live forever in Spirit.

So, our earthly life is finite and very important. Our eternal life is infinite, but our physical life is finite, and it's during that time that we need to grow our Divine Nature, which is our eternal spirit to live in the spirit world forever.

So, just as a nine-month-old baby has had time in the Womb to physically develop all of the characteristics to live a healthy life on the planet, on earth, our spirit lives within us during our time on earth, and is growing within us to arrive at a level of maturity that can live in joy and happiness in the eternal physical world.

So, just as it takes time for the physical body to grow, it takes time for the spiritual body to grow. It is the same for both men and women btw.

So, whereas our physical bodies grow autonomously with food and air and rest, our spiritual body requires actions in accordance to God's Heart and Will. In order to become Godly people, we need to make Godly choices. Isn't that fair?

That means we have a responsibility, differently from all of things in Creation. And it's not just that our software made us that way, but we're actually growing our relationship with God. And as we grow our relationship with God, we are growing our spirit.

Growing our spirit in a Parent/child relationship with God, that's our Original Nature as Children of God. It's a very special and unique Blessing that we have been given, that human beings have been given above all other beings in the universe.

Some people think that perhaps angels are higher or really fast running animals are higher or of greater importance. Well, this isn't about looking down on anything in Creation; in fact, it is our role as Godly Children to love all things, and honor all things. But we are to do so having matured the Characteristics in us of our Parent, Heavenly Parent, God.

So, both the men in the world and the women in the world have a responsibility to grow, not only our physical bodies and take care of our physical health, but we have a responsibility to take care of and grow our spiritual bodies, and take care of our spiritual health, so that we can become truly spiritual and physical Beings that resemble God's Character.

Let's look at Scripture. In Genesis we can see that when God speaks to His Children, He Blesses them

saying, 'Be fruitful and multiply and have dominion over the fish of the sea and over the birds of the air and over every living thing that moves upon the earth.

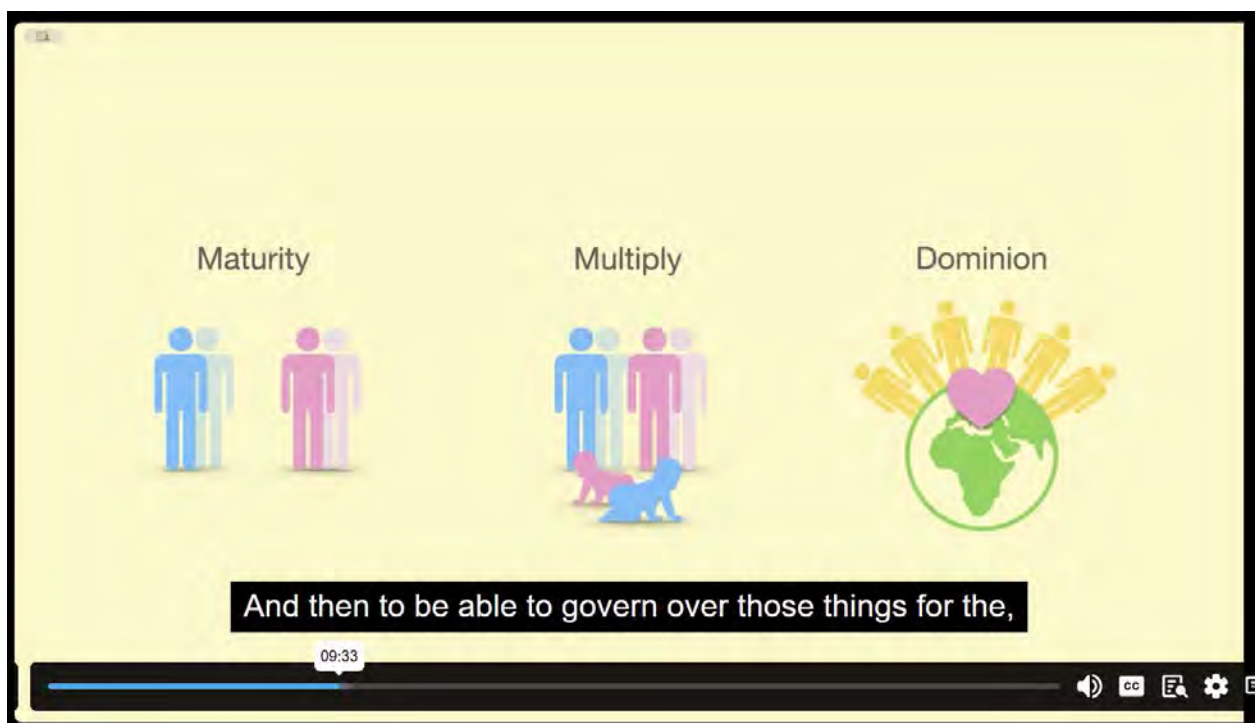

Wow! This is known as 'The Three Blessings', the Three Great Blessings. And it shows God's Love and Desire for us human beings.

Let's unpack it. These three Blessings correspond to three major areas in our life:

1. Our personal character which is rooted in our relationship with God.
2. Our relationships with others, which is first rooted in our own loving family relationships.
3. Our relationship with the world, which has been given to us to both enjoy and take care of.

So, the fulfillment of the Three Great Blessings is the fulfillment of these three things. This is the Ideal. This is the Dream. This is kind of the Blueprint of The Dream.

God Imagined Us to be both physically and spiritually mature and beautiful. God has Blessed us to Join in Marriage and Form Beautiful Couples both physically and spiritually intertwined in Joyful, Harmonious Relationship, and from there to multiply an awesome, beautiful family that represents God's Family.

And as such, we have been given the Blessing to steward the world, to enjoy the world, to love the world, to subdue it with all the intricate Laws that God has manifest in everything, **and then to be able to govern over those things for the** benefit of humanity, for the benefit of the world, for the benefit of God, because God Wants to Enjoy all those things through us.

Through these three major areas of our experience, we learn to develop our own unique heart, mind and will, because God Designed us with this Purpose. And we're not going to feel entirely fulfilled without experiencing these fundamental Blessings.

Guys, that's why you're never going to be happy if you don't have a relationship with God.

And we're never going to be happy (fulfilled) if we don't form a family. And we're never going to be happy unless we figure out how to live in a harmonious relationship with the planet, right?

So, maturity means consistency in word and deed, autonomy, self-management and my true identity as God's Son or Daughter

And multiply means loving and investing in others ...of course eventually with your spouse and with your children, developing a Parental Heart like God.

But we're able to relate with any human being of any age in a loving and harmonious and respectful relationship. That's the essence of horizontal relationship.

And actually, in these first two, you see that which Jesus simplified, 'In the Laws, above all others,

everything hangs with these two things: Love God and love your brother, love humanity, Love God and love one another.

And ultimately, as an extension of these two primary axis of Love and engagement and growth and development and experience and joy, centering on these two things, everything is set for us to be able to steward lovingly over this incredible Planet that God has given us.

This includes creativity, Ingenuity, managing the environment, creating creative purpose and results, right? In practical terms, this is what you study for, this is what you exercise for. This is what you train your body for, train your brain for, train and learn all of the skill sets that you uniquely feel called to develop beyond the basic skills.

What are the unique things that you feel excited to develop. What are the unique things that you want to do? This is your Blessing. From the Beginning of Humankind, this has been our Blessing. But because of fallen history, because of the Fall we fell into such dark corners of reality that we created.

These weren't dark corners that God Created but that we created. We created these things, and God's been longing to bring us back to this Blessing. But this is where we're at.

So, in order to achieve the foundation for these three things, God needed to first secure His Children, His Representatives that would mature their Divine Character and build the First Family of God's Lineage, and all of this would have been just a natural evolution of humanity, a development of humanity.

So, how would God do this? This would be God's Blueprint. I'll share: As a Spiritual Being, God's Plan was to Give Birth to a Son and a Daughter Both Spiritual and Physical, Who would follow God's Heart and Commandment to grow to a level of God's Own Divine Character, by becoming a True Son, by becoming a True Daughter, Resembling God's Nature. And this takes time.

It takes time and would require that They keep God's Commandment during that time. So, God has some responsibility to create an environment to care for and protect His Beautiful Children. But we, let's say the First Human Beings would have responsibility to also protect themselves, namely, protect Their Spirit, which They are Housing, They're cloaking within Their Physical Being.

God would take care of the environment to make sure They had food, water, sunlight, air, rest, protection from the elements. That's God's Job, you know? to Create the Environment where They would be able to be physically safe. But They were responsible, the first humans would be responsible to protect Their Godly Spirit.

That also starts off just as a burgeoning little Spirit and needs time to grow and mature. And we can call this 'a growing period', right? And during that growing period, we simply need to make Godly choices. We need to do what God really guides us to do, which isn't difficult if we remain in relationship with God, because God's our Parent. And God's looking out for us too.

The act of God's First Son and Daughter reaching the status of True Children would then grant God the Position of becoming a Parent. Do you understand? God would become a Heavenly Parent at that point.

God would be able to say, 'This is my Son and Daughter in Whom I am well pleased.' Isn't that so? You know, God already has a lot that He's Created. If He's Created the Universe, the Galaxies, The Suns, the various Planets, and the Planet Earth with its incredible that seems uniquely, as everything we've studied, seems uniquely attuned and prepared to be an environment for human beings, and not just human beings, right? The birds of the air, the fish of the sea.

Everything is beautiful, everything is such incredible world we live in, and God is Embedded in all of it, the Love of God, the Energy of God, the Principles of God's Nature and Characteristics are, not embedded but are the innate Essence of everything that exists, right?

And on that Planet, God would give Birth to the highest form of the highest version of His Essence, The Man and The Woman, The Son and The Daughter, right? In God's Image, He Created Them, such that when They could mature, not only physically but also spiritually, at that point, They would come to fully Resemble God's Male and Female Characteristics.

At that point God would be able to say, 'This is My Son. This is My Daughter, in Whom I am well pleased. And such a Being that would Say such a thing is the Parent. In other words, it is the Children that make the Parent. It is the Children that sign the certificate of the Parent.

This is important, and I want to really continue to hit this point that we have had somewhat of an ignorant or limited understanding of God, The All-Powerful, All-Amazing, All Been-There-Done-That Perfect Being, That Has Already Seen Everything, Done Everything and Knows Everything. And there's nothing

more to experience, nothing more to learn, nothing more to do, nothing more to reveal. That's not True.

If that was our Creator, if that was our Parent's Character, then that would be our character. Do you want to be a person that just gets to some level of perfection, and it's all done. And you live for eternity and there's nothing more to experience that's new, nothing more to learn that's new, nothing more to do to accomplish that you could say, 'I did this.' That's boring as heck.

God wants to be a part of an ever-evolving, developing expression of God's own Love and Essence and Principle, because it's exciting.

So in other words, God's Idea was to give Birth to a Man and a Woman Who would Resemble Him. And God's Dream was to get to the point where those Two People could become One. And God's been waiting throughout all of human history to Experience that. God's longing for that moment.

Another term that's used to describe this status is, 'Only Begotten', right? Only Begotten Son, Only Begotten Daughter. But honestly we don't need to get too hung up on these terms. It's just words that are used to try and convey a specific meaning. But many times we get caught up with words because words might mean to ten different people ten different things.

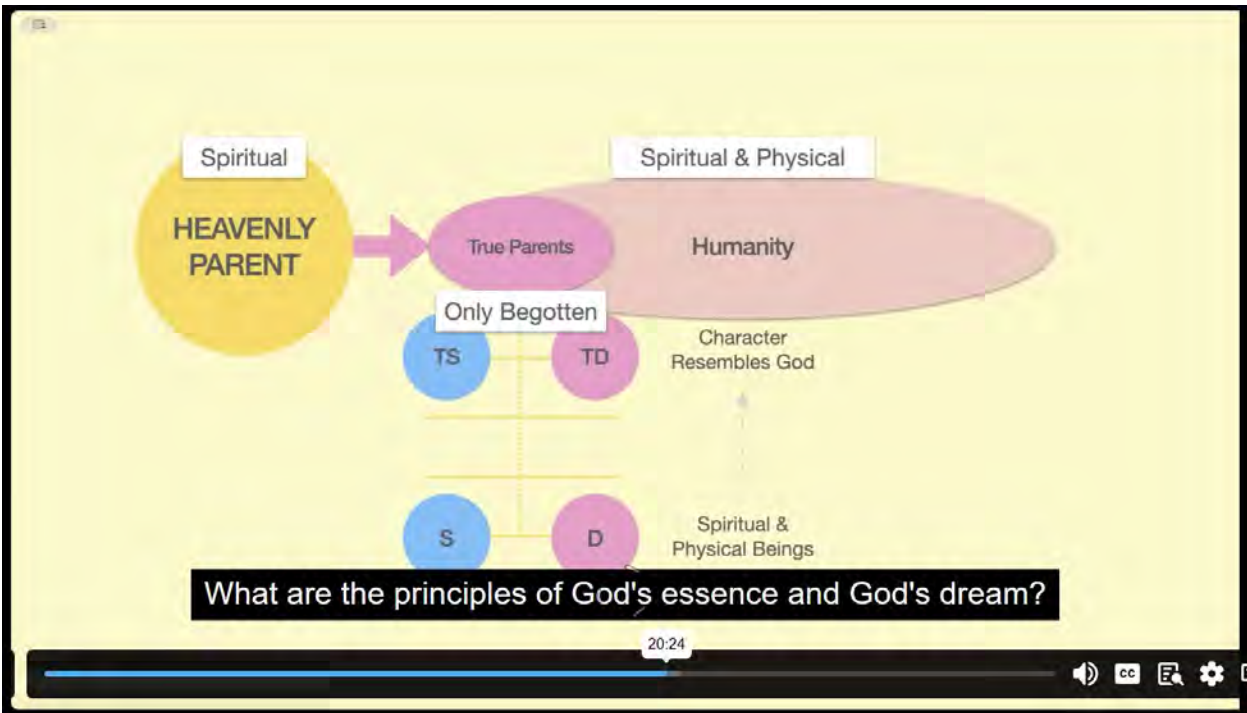

So, when Mother says, 'Only Begotten Daughter,' I want us to understand that this is what it means. It is a Son or Daughter, really the First Son or First Daughter that have fully Resembled God's Male Characteristics or Female Characteristics. Essentially it means the First Man or First Woman Who Are Born By God's Will And Mature Their Divine Characteristics By Keeping God's Commandment.

They are the First Male and First Female Representatives of God's Image on Earth, because They have established that level of maturity that is in alignment with God's Heart. That means that God is dwelling within Them. They are One with God because Their Spirit is not an ugly spirit that might leave no space for God's Essence. But They are a Divine Spirit. They are a Human Being with a Divine Spirit.

Guys, we were Created ... That's our Original Destiny to be People of a Divine Nature with a Divine Spirit, not just a holy people fasting for months up in the mountains. All of us. Don't you want that? Yes! I want it. And I'm so grateful for the Truth that has been revealed through True Parents for us to understand it much more simply.

So, here's another thing: This Man and Woman would then Form a Family. This is huge! This Only Begotten Son and Only Begotten Daughter. This True Son and True Daughter would Come Together Blessed In Marriage To Become A Family and then would Become The True Parents Giving Birth To God's Lineage.

Giving Birth to Humanity ... not fallen humanity, not struggling humanity, not waring humanity, not an ignorant humanity that's constantly in conflict with itself ever afraid of its future such that it's bent on stealing from one another, harmony one another, territorialism, grappling for what you think you need for yourself. No. That was never supposed to be the world that God wanted us to create.

We created that world, but we're looking at what was the Blueprint for the Ideal ... what was God's Dream!? **What are the Principles of God's Essence and God's Dream?** This is it. Man and Woman

were to Form a Family as True Parents, as Parents. Not as false parents but as True Parents, or Parents that Resemble God's Divine Nature.

And in this sense, the First True Parents are The One and Only. There would only be One Beginning True Parents of all humanity. And They would Give Birth to Humanity. And Children Born out of this Love Would Be God's Children, would Be the establishment of God's Lineage on Earth.

And They wouldn't need to watch videos and listen to lectures to understand Their Identity and Value, okay? That's the Original Dream of God. If you agree, then say, 'Amen,' say, 'Aju,' say 'Halleluiah'. But that's the Truth.

The fundamental idea here though, is that it is the child that makes the parent. Now it's often not expressed this way, but this is the way I like to express it. We the children have a responsibility, and it is the child that makes the parent in a sense.

Of course, God Created us, but when we get to that point of maturing our character, that part that we have taken responsibility for, that part that we can claim as our co-creatorship, and standing on that platform, that level as resembling God's Nature, we can say, 'I am God's Son.' 'I am God's Daughter.'

And when God hears that, when God sees that, God can then boast to all of His friends at the party, 'Uh Hum, you see, Me I Created this, My Children.' 'I am well pleased. These are My Children.'

Without Heavenly Children, there is no Heavenly Parent. You could say there is a Creator. But without Heavenly Children, there is no Heavenly Parent. In that sense, even though God is great and Almighty, God risked a lot to give us human beings that responsibility to co-create with God. Not only to co-create our own status, but such that co-creating our own status would actually change God's Status. Do you believe that?

Whoo ... I've got a few more videos to make, so I don't want to get too excited too quickly, but I feel the Spirit of God resonating around such a simple concept as this, right? That we in fulfilling our responsibility to become Heavenly Children, are actually co-responsible for creating God's Experience in many, many ways.

But also that The First True Parents that establish that True Parents would be The Ones, that in a sense create God's Status, as not God, not Creator, but Heavenly Parent ... Heavenly Father and Heavenly Mother, Heavenly Parent. Isn't that amazing.

In order for God to become a Parent He needed Children that Resemble His Nature and Purpose. And because God is both Masculine and Feminine in Nature, God made us in His Image Both Male and Female.

We do not fully resemble God's Nature until we mature and perfect our spiritual character. Spiritual Maturity requires time, but it also requires Godly choices and so that time period is given for us so that we can grow internally and externally to resemble God.

Then we would be able to form a Godly Family and Expand God's Lineage. On this Foundation, Together with God, Humanity is Destined to Co-Create a beautiful, beautiful world. This was the Dream that God set out to accomplish through our first human ancestors.

This was the Dram that God set out to accomplish through our first human ancestors, and just imagine for a moment what that experience would be. What God longs for is to be a Parent of Substance. Otherwise, He wouldn't have made Children of Substance, and as those Children of Substance Become in God's Likeness, God is Resonating with Them.

We always look at that, though, from the point of view of our experience, 'Oh, I feel God in me. I feel God in me. I feel some resonance with God.' Look, guys, it's like athletes, elite athletes, when they're in the zone that they get into, I believe that that kind of resonance, that feeling of being in complete oneness with your purpose and goal in that moment with the ball or whatever you're doing, that's very similar, I feel, to the sense of being One with God in that moment. But imagine in every moment, not just focused in some blind sense of what you're trying to do but in Oneness with God and feeling God and being grateful to God and 'Thank You God.' 'Thank You God!' Right?

And so we think of this part many times, we might pray to feel it, we might meditate to feel it, we might fast to feel it, we might do something that gets us out of our cobweb thoughts to feel it ... and just open up to feel God, but 'What does God Feel?' This is the question, 'WHAT DOES GOD FEEL?'

Mother has recently spoken about this in very simple terms, right? And when it comes to this incredible Entrance Ceremony of the Cheon Won Gung and what this means to humanity and what it means to

history and what it means to the world, bringing God back home so that now we can attend God in Substance.

What is that? Is it just so that we are coming in some prostate manner bowing before God and feel God's Energy so that we can walk away and say, 'Oh, I had a great experience with God.' No! That's just one small part of it.

**What Mother is Saying is that God is longing** to Experience that with us. God is Longing to experience that through us. God is Longing to Experience all things that He Created in Substance through us.

If you really understand this point, then you should reflect on it, because if we've been living in a world for 6,000 Biblical years (many more if you look at it scientifically) ... If we've been living for the entire history of humankind on this Planet in a fallen state without any True Parents established, without a Son and a Daughter Coming Together and establishing that Foundation, then there's no God's Family, there's no God's Family in Substance and there's no Godly Children in Substance. There's no Godly Lineage or Village or Town of God's Substance. Right?

So, we have the incredible universe. We have the incredible galaxy. We have the stars. We have the mountains, the rivers, the sounds that the river makes, the fish, the leaves, we have all of this beautiful Creation in Substance, but can God Experience it? Can God Feel it?

If the Foundation for God's Substantial Being on Earth hasn't yet been established, then is God having a Substantial Experience? In other words, throughout the entire human history up until the point that we have True Parents that can experience things, even God, Himself, Herself, our Parent perhaps hasn't ever Experienced in Substance the things of Creation that God Created in Substance to Feel Through His Children ... Who He Created in Substance to Experience Joy In Substance on this Planet of Substance.

That means you have to ask yourself the question, 'Has God ever really heard that sound that that stream in the middle of the forest makes, that high frequency trickle of water as it's cascading around the rocks and the fallen branches in that little stream?

Has God every heard the sound of a deer drinking water from that stream? Has God ever felt the softness of fallen pine needles beneath His Bare Feet as He Steps Lightly Up to the Stream, and the deer takes its nose out of the water for a moment, as if everything stops and it looks God in the Eyes ...

Has God Himself ever been able to dip His own Hands in that fresh spring water and lift up the water to His Face and splash His Face with cold, beautiful stream water ... to drink from that water ...

If we have never given God a Substantial Platform of Godly Nature that God can Embody ... Has God ever been able to Experience these things? I ask you ... Has God ever been able to look at the sunlight coming through, the dappled sunlight breaking through the canopy of leaves above ... leaves not just green, but if you look closely, there's every shade of green and colors manifest throughout the flowers and all the things that God's Created.

Has God ever seen that Light reflected in that way ... Has God ever smelled the aroma of those flowers ... Has God ever turned over His Shoulder and seen the incredible Divine Beauty of a young Woman, as

handsome as men are, God took it up a notch with women when it comes to beauty ...

Has God ever been able to turn around to look at the Divine Image of God's Feminine Manifest in the Locks of A Woman's Hair, the way the sunlight glistened on Her Face, Her Beautiful Face with the same features as the Man, yet somehow entirely different ... more refined, more beautiful, more graceful, more exquisite ...

And there's a heart that that Woman Manifests ... and what does She See when She Sees the Man, somehow more chiseled, more impressive of strength, the muscle, the tenue, whatever you want to express, how handsome, how incredible, the ingenuity ... That Man's maybe already thinking of building a bridge over that stream, when maybe the Woman is thinking, 'Does the Man notice Me? How I wish to care for Him and make a Family together?'

You know, if those two, beautiful Man and beautiful Woman, having established God's Essence, not only God's External Beauty but Internal Beauty, Both of Them Individually, beating in resonance with God's Nature, if They Come Together and Form that Beautiful Family, then God is Experiencing that Moment Together ...

God is Feeling the Caress on the Woman's Cheek and He's Also Feeling the slightly rougher skin of His Son's Hand on His Cheek ... It's the Oneness of Man and Woman Coming Together and all of the things we experience therein, eating ice cream, inventing pizza and making all kinds of pizza, endless array of different things to create, artwork and poetry and music and architecture and technology ...

All these things were to exist in the Original World. It's all part of God's Dream to Create and Co-Create with Man and Woman in Purity and in Love.

So, much of what we've slowly throughout history figured out how to do, nonetheless, we've been doing it in a way that's hurting one another, denying the Planet, hurting the Planet, denying even members of our own family, hurting ourselves, hurting God, and all the while doing it without really having that Heartbeat of God's Pulse in our Heart 24 hours a day...

And we've therefore been blocking God from Experiencing (Good things and advances) as well. And Mother is now bringing us to the place where all humanity can feel this and experience this. And this hasn't happened until now. It hasn't happened until now. As we know it didn't work out in the past. And we're going to look a little bit in the next session as to why ...
