The Persecution of the Mother of Peace Continues in Korea

Letter to All Members of Our Global Family

Friday, October 10, 2025

To All Members of Our Global Family

Beloved brothers and sisters,

Today a grave injustice has been committed. Our beloved True Mother, Dr. Hak Ja Han Moon, the Mother of Peace, has been officially indicted by South Korean authorities. This act of persecution wounds our hearts, yet it cannot shake our faith. Heaven will not be mocked, and truth will never bow before falsehood.

This moment tests our devotion and our resolve. We were not called to retreat in fear but to stand in Heaven's light with courage and conviction. Now is the time to show the world the strength of our love, our unity, and our unshakable hope in God's providence.

True Mother has shown us through every trial that we must never answer hate with hate or fear with despair, but with love, prayer, and action. Once again, Heaven calls us to lift our hearts, to cover True Mother in spiritual protection through united devotion, and to rise in visible, tangible action to defend truth, love, and righteousness.

Remember: when evil sought to silence True Father, he rose stronger than before, carrying Heaven's fire in his heart. Now the same forces come for True Mother, but they will fail again. We will not bow to lies or to fear. We will rise with faith that burns brighter than hatred, and we will prove through our lives that light cannot be overcome by darkness.

That is why I am asking all members, families, and communities across the world to join together in a special worldwide prayer tonight at **10:00 p.m. Eastern / 7:00 p.m. Pacific**. Let this not be a routine prayer but a declaration of faith. Let our devotion echo across nations, shaking the walls of injustice and surrounding True Mother with divine protection and strength.

Pray for her health. Pray for her victory. And pray for the awakening of this nation of Korea, that its leaders may remember Heaven's will and return to the path of righteousness. Let us stay steadfast, peaceful, and fearless, knowing that Heaven is moving even now. Our unity, our prayers, and our actions are our greatest power. We will not stand by while darkness advances. Heaven's victory will come through our courage to act in love.

We are God's sons and daughters. We are the children of True Parents. Our faith will not waver, our hearts will not fail, and through Heaven's power we will prevail.

Seoul, October 10, 2025 — Religious persecution in Korea continued today with the indictment and continued detention of the 82-year-old Mother of Peace, Dr. Hak Ja Han.

As other recent legal proceedings confirm, this religious persecution is not limited to any one leader or church. Charlie Kirk put it best when he said, "There are some terrible things happening in South Korea right now."

In recent weeks, the world has come to recognize what is happening in Korea, While unacceptable, it is not new. Throughout history, the most powerful voices for peace have been persecuted by the systems they sought to redeem.

Nelson Mandela was imprisoned for believing in equality. Mahatma Gandhi was jailed for teaching nonviolence. Mother Teresa was condemned for her compassion among the poor.

And now, today leaves no doubt – the indictment and detention Dr. Hak Ja Han places South Korea on the wrong side of history with so many others.

Persecutions based on Korean's faith, not their conduct, can never be condoned. And yet, that is where we are. As such, it marks yet another tragic moment for faith and freedom.

We fervently ask that the world pray for us. More will come so as long as the religious persecutions are allowed to continue here.

Make no mistake - this is not about justice — it is truly about religious persecution. In this case, the persecution of a woman whose entire life has been defined by peace, compassion, and service to humanity.

Dr. Han — a great-grandmother, humanitarian, and global spiritual leader — has harmed no one. Her only “crime” is her faith, her leadership, and her unrelenting vision that humanity can live as one family under God.

This moment is not about a courtroom — it is about conscience. It is about whether a nation that cherishes democracy will allow fear and falsehood to silence faith.

To those who believe in justice: we call on you to speak, to pray, and to act. This is not just a fight for one woman; it is a fight for the soul of religious freedom in the 21st century.

Though the walls of injustice may confine her, her spirit remains free — and so must ours. The Mother of Peace continues her mission through us all.

The persecution may continue — but our faith only grows stronger.
