Break the Shell and Be Reborn

Beloved brothers and sisters. I hope you have been well this past week.

Over the past two weeks, we've shared practical ideas for living out the First Blessing—individual perfection. Today, I wish to speak with you about something even more essential: our mindset and resolve. To truly enter a new era, we must first break free from the framework and comfort of our past. Today I want to share with you some wisdom from the Principle of Creation.

I know that you all are very worried and your hearts are hurting due to True Mother's being held in detention center. But even in her confinement, True Mother's heart is not burdened for herself—it is filled with concern for each one of us. She continues to speak to us with unwavering love:

"All you have to do is talk to people about the Principle of Creation. About the Principle, about attending Heavenly Parent, and about Heavenly Parent's dream. Humanity must become one family that can attend Heavenly Parent on earth."
