About:

At True Mother's personal request, we are now preparing the fourth Top Gun Leader's Workshop in Cheongpyeong. This is a chance to inherit the tradition of True Parents, and prepare for a new generation of leadership in our movement. At the end of the workshop, participants will be invited to celebrate True Father's historic 3rd Seonghwa anniversary. We will be announcing more details as soon as possible.

*"From now on, the life of people with a public mission must be clear. They must be transparent. Their words and action must be one and the same, and they must practice that. In other words, you should not take the words you say lightly. I sincerely hope that you will become leaders of virtue. Being true and sincere is this model. Hence, let us build a culture that welcomes with open arms anyone that leaves and anyone that comes."*  
True Mother

Schedule:

This will be a 21-Day workshop, plus participation in the 3rd Anniversary of True Father's Seonghwa. More details will be announced as soon as we have confirmation.
