

1,500 attend Chung Pyung Heaven and Earth Liberation - Blessing at Belvedere

Demian Dunkley
October 6, 2019

More than 1500 people came together on October 5 and 6 at Belvedere in Tarrytown, New York to participate in chanyang sessions, special lectures, an ancestor liberation, and Blessing Ceremony. The two-day event was hosted by staff from Chung Pyung Heaven and Earth Training Center in Korea and Family Federation for World Peace Unification (FFWPU) USA Headquarters.

"I'm very glad I came, because I feel very purified and cleansed from all the stresses and negativity from work life," said Airy Kyoko Yeh, a participant from New York City. The CheonBo event was a calming experience that many participants felt was similar to visiting Chung Pyung.

President of FFWPU USA Rev. Demian Dunkley and Director of International Department, Hyojeong Heaven and Earth CheonBo Training Center Dr. Insung Moon gave presentations explaining the meaning behind different aspects of the CheonBo event. "I used to always think to myself, 'Evil spirits, be liberated, be gone.' I used to have that attitude," said Willus Namowicz of Generation Peace Academy

(GPA). "Dr. Insung Moon said we are not here to make the evil spirits go away, but to really embrace them and give them love. With the help of that talk I felt I was able to have a positive experience doing Chanyang."

Another element of the event that created an uplifting atmosphere was the Ancestor Liberation. "Coming from a Catholic background, ancestors are real for me. I know that [my ancestors] played an instrumental part that lead me to meet True Parents, so I feel I want to give back to them," said Angelika Selle, president of the Women's Federation for World Peace (WFWP) USA. "I've received so many blessings and I want to give them the opportunity to receive the same." True Parents is a term affectionately used by Unificationists when referring to Dr. Hak Ja Han Moon and her late husband Rev. Dr. Sun Myung Moon, co-founders of Unificationism and FFWPU.

In April 2019, Rev. Dunkley went on the [America is God's Hope Presidential Prayer Tour](#) to honor and pray for the past U.S. presidents. During the tour, funds were raised throughout communities to nationally liberate the spirits of those presidents. For the past two CheonBo events, American Unificationists have been liberating U.S. Presidents who have not been previously liberated. This CheonBo event liberated Richard Nixon, Ronald Reagan, Woodrow Wilson, Calvin Coolidge, and many more. In addition to these presidents, couples from the Mayflower, Unificationist missionaries, American inventors, activists and explorers and other significant historical figures were also officially liberated.

The CheonBo event offered something for everyone, whether it was more peace of mind, body and spirit, better physical health, connecting with loved ones, or liberating and Blessing ancestors. Everyone shared how excited and grateful they felt toward Dr. Hak Ja Han Moon for providing this special grace and sending the team from Chung Pyung.

true love in resemblance to our Creator, the Heavenly Parent!

Reflections from CheonBo Special Event in Belvedere, NY October 5-6, 2019

“I’ve been having a great time. I was looking forward to this because I’ve had good experiences with CheonBo in Korea and when they came to Chicago. I have faith in this. I believe that my ancestors can work with me. Through this, I can have a relationship with my father, who is in the spirit world. This is the reason I came; I wanted to reconnect to him one more time. I haven’t been feeling him since he ascended, so this was a way to connect to him spiritually.” —Sarafina Kisile, Bridgeport, Connecticut

“I wanted to participate in the Chanyang because it is great for your spirit. Also, it is great preparation for me because I’m [pregnant] and due this month. In 2012, I stayed in Cheongpyeong for two months and attended a 21-day workshop and 40-day workshop. It was a very good experience, and this was a refresher of that experience.” —Mariya Makarova, Staten Island, New York

“What a great day. Such great people. I believe in this and I have faith. The best thing about this event is seeing all of our faithful brothers and sisters coming together. My family has now completed liberating and Blessing our ancestors, and it feels excellent.” —Bruce Burns, New Jersey

“We, the Generation Peace Academy (GPA) Heavenly USA Team, are a part of the spiritual atmosphere. We’re here to prepare ourselves and everyone else for December 28, and to create a high-energy atmosphere and raise spirits. We want to show that this is our year to serve America.

“I really liked Chanyang, I was able to focus internally on the presentation, the gratitude points and repentance. I was able to think about it and try to connect deeply to it. I felt really refreshed and I felt pretty light in a way. Also, Rev. Dunkley’s lecture was really powerful. He gives us inspiration every time he speaks. It was amazing. I want to support True Mother as well and bring victory.” —JungSun Batino, GPA Heavenly USA Team

“GPA is going to be attending all the other rallies, too; in Chicago, Washington, D.C., and elsewhere. Whenever there is something big happening in America, as youth, we want to be there to help support and create high energy and spirit. We want to help support America and True Mother in all her efforts. This CheonBo event is significant, so we wanted to be here to help support it.” —Hideaki Nagayama, GPA Heavenly USA Team

“Today was a really wonderful day, especially the Chanyang session. I used to always think to myself, ‘Evil spirits, be liberated, be gone.’ I used to have that attitude. Prior to this session, Dr. Insung Moon said we are not here to make the evil spirits go away, but to really embrace them and give them love. So, I felt with the help of that talk I was able to have a positive experience doing Chanyang.” —Willus Namowicz, GPA Heavenly USA Team

“Today has been such an amazing experience. It was very informative talking about Chanyang, delving deep into the reasons and meaning behind it as well. I found it to be very amazing, and I’m looking forward to more tomorrow.” —SunMee Tamashiro, GPA Heavenly USA Team

“I was asked to do Chanyang today. I found it very interesting that they asked us to do the Holy Spirit’s work, and we invited True Mother, who is the embodiment of the Holy Spirit, to be with us and work through us. During Chanyang, I was feeling True Mother’s love for people. There was one particular person, a sister I have never even met before, where I just got really emotional. I realized this lady has gone through so many things. I could literally hear True Mother saying, ‘This child has suffered so much and I want to love her through you.’

“I also saw my spiritual mother. Her husband used to be the cameraman for True Parents. When I was doing Chanyang with him today, it was like my heart was melting. I felt True Mother missing him, because she used to see him all the time everyday. I remember him so well and I really felt God’s and True Parents’ love and gratitude for him. I don’t know if he felt anything at all, but I really felt so much love and gratitude for him today that I thought it came directly from True Mother. I really felt True Parents’ love for these people today. It was really quite a profound experience for me.” —Rev. John Jackson, Southwest Subregional Director, Texas

“I’m very glad I came because I feel very purified and cleansed from all the stresses and negativity from work life. It’s nice to be reminded of Cheongpyeong; when I was there I felt very connected to God. I am inspired to go to CheonBo again for a workshop.” —Airy Kyoko Yeh, New York City, New York

“Coming from a Catholic background, ancestors are real for me. I know that they played an instrumental part that lead me to meet True Parents, so I feel I want to give back to them. I’ve received so many blessings and I want to give them the opportunity to receive the same.

“These sessions are very spiritual for me. Yesterday, when I was sitting here, I felt little bubbles coming up my skin, like in a seltzer. All around me these bubbles came up. I visualized that spirits were being taken by angels to the next realm. Before coming to Belvedere told those spirits, ‘Get ready for a better place. You’ve suffered enough, and I love you.’

“Today, when we did the liberation, I heard a voice saying, ‘You have no idea how long we have been waiting for this.’ I heard that over and over, ‘You have no idea how long we have been waiting for this.’ I felt incredible gratitude and tears coming from them to me because I did that for them.

“I know that the work we do is for peace with God, with divinity and with the beauty and heart of the original world. Achieving this takes focus, because there are so many distractions and so much turmoil in the world. How do you actually create something different in the midst of what exists right now?

“This is very glorious. First of all, I love the music and the celebratory holiness that we can experience here. We are all holy, but we do not feel that way when we are in other environments. Here, we can really experience the best within ourselves. I feel that this is truly America.

“If all the barriers are gone, hopefully, and if our ancestors are in a better place, maybe we will get along a little bit better down here, right? Maybe there will be less barriers within my own mind. Maybe we can love everyone, and love the unlovable, because we need the power of love and the strength of love to love what is around us. Things are pretty bad right now, so this is a good time for this kind of event. Here we can liberate ourselves and begin anew.” —Angelika Selle, President of the Women’s Federation for World Peace USA, Bowie, Maryland

"First of all, I think it's wonderful that we are here and this is happening now. The opportunity to be able to represent 430 couples is really an amazing thing. I guess when I reflect, I feel very moved to be here. I feel this is very profound. This experience feels more real this time than it ever felt before. More than anything, I believe that we are one family under God. I feel it here with everybody, and that's really beautiful." —**Matthew Learey, New York**

"For me, what stuck out most happened during the ancestor liberation. The focus was to really embrace the evil spirits with a loving heart as you send them out of your body. It's not just about getting rid of them, but it's your job to embrace them and set them free to go somewhere better, rather than just hanging around us. Overall, I felt an incredible sense of unity and brother and sisterhood, with people I don't really know. We are truly on a different kind of level, even more than last year." —**Kristine Learey, New York**

"I only attended one ancestor liberation and Blessing in Korea, and then one in Belvedere, so this is my third time. Usually, I am not actually present, so this was very moving, especially the Chanyang. My husband is in the spirit world, and I can feel him here. I don't see him, but I know that he is here." —**Eva Mackin, Connecticut**

"The Chanyang is such a liberating moment, I can't even imagine that anyone wouldn't want to do it. It's just so liberating, wow. It's something out of this world, it's just so amazing. I would recommend it to anybody, even someone who doesn't know what Chanyang is. Talking about ancestors and liberation and things like that is so new in history. It's foreign for people to talk about it. There is so much confusion. However, I think it is really awesome." —**Caroline Hanssen, Rhode Island**

"I appreciate this opportunity. I was waiting for this moment to reflect on the many things in my life. Especially for my children, I want each one of them to be happy. My husband passed away, so I don't have anyone to talk to about making sure my children are happy except my ancestors and God. This is a place where I can really talk to them. The ancestor liberation and Blessing is a grace from True Mother. She said, 'Now you can liberate up to 430 generations in less than 20 years.' That is truly a miracle, and it makes this event very important. Through the Chanyang, I felt the toxins that built up over the years being released. It was very healing. It's great that seven locations around the world are all hosting CheonBo this weekend. We are all united." —**Akemi Hendricks, New Jersey**

"There are so many ancestors that were Blessed today, here and all over the world simultaneously. I really hope that our absolute good ancestors help us accomplish Tribal Messiahship here on Earth." —**Kiyoko Rinkema, Hanover Park, Illinois**
