

## **True Mother Kang Hyun Shil**

### **God reveals his Secrets through his Prophets**

January 10, 2017

Reading: Amos 3:7

*<sup>7</sup> Surely the Lord GOD will do nothing, but he revealeth his secret unto his servants the prophets.*

When God was conducting the providence, when He wanted to accomplish his will, He would not just do it, but instead He would reveal His secrets to the prophets who were his servants. When people did not do according to his will, and did not live the way that He desired, God was very angry.

For example at the time of Noah God could not endure his anger and at the exception of the family of Noah He caused all of humanity to die in the flood. Also in Sodom and Gomorrah, because five righteous people could not be found, God caused heavenly disaster to occur and turned that city into a sea of fire.

We can see from these examples that humanity will have no way to live if we cause God to become angry. We can see that even in those examples, God did not act unilaterally; He did not do it just on his own, rather He made his will known to his servants the prophets.

So for Christian saints it is important to understand and know where God's providence lies, where his will lies, because if we live in a way that goes against it, this will cause our nations and our world to be destroyed. We must not cause God to become angry like that.

In each age, God reveals his providence to a person that He has established as the true central figure; therefore, as Christians we must know who that is and what the providence is that God is conducting in this age.

If we do not know the will that God is conducting in this age, no matter what great works we might be performing, no matter if we have faith that moves mountains all that will be for nothing.

So I think that today Christian saints must realize that God is working through the 2<sup>nd</sup> King Hyung Jin Nim and that this is the work that He is conducting; this must be known clearly by all Christians.

When we realize that if we do not recognize this, and if we do not go this way, things will go badly, then we find ourselves in a fearful situation, in a very fearful position.

So today the Sanctuary Church exists in a very important position; it has a tremendous responsibility that must be accomplished.

Thank you,
