

# Online Course at UTS: Web Outreach can Transform the World

Yulian Marianov  
January 4, 2011

Internet is truly a Groundbreaking method to witness to many people. We are living in the age of "Fast Communication" and we must be wise enough and adjust to this New Era. Now UTS provides a 5 week online course for any church member willing to learn. The course starts 19 of January.

## Internet Outreach: Beginner

Through this course on Effective Blogging you will discover the amazing power of Internet, through which you can reach and educate millions of people. This course is based on successful model that brought great social impact and inspired many thousands of readers.

Learn how to create an effective blog and fill up Google with our information; How to write and promote; How to win the information war on the Web; How to reach thousands of readers daily; How to take care of hundreds of contacts.

The only technical skills needed to begin this course, are typing and copy/paste ability.

### **The cost of the training is \$155.**

Those registering by January 9, 2011 will receive a 10% discount.

**Online registration open until Sunday January 16 at midnight EST.**

## People don't know the Truth: give it to them

One sister asked me, what have I found out regarding "what and why people misunderstand TF. This is a very good question and I can think of three obvious points:

1. Misinformation is the only information they are being given. And bad forces made more effort to spread it, while we stayed low.
2. Members published mostly for members, our materials are difficult for them to understand, so for outside people is impossible to conclude otherwise but to accept the false image "of a sect" that they are being told.
3. My experience is that in fact very few young people are negative. They simply don't know us, so

whatever interesting I tell them, they accept it with open mind. Especially the people with good original nature.

I was always curious, why everyone knows that we consider TF as the Messiah, but we were never the ones to say that openly. Negative articles were proclaiming that openly, but we were trying to hide. Well, I think we could finally grow over that.

## Now is a new time

Not only we can proclaim boldly about Father's mission, but I find that people show great interest and enthusiasm about this fact. Especially when they find that this Messianic claim is supported with facts, prophecies and actual deeds and results; especially when they find that the aim of this Messiah is undeniably good for everyone. Prepared people are automatically inspired about our vision. And when you reach to millions of readers you definitely reach to thousands of those prepared people.

**Studies, statistics, reality and experience of others and my own personal, show the Witnessing Power of Internet. The words of True Father and In Jin Nim also point us on the need to use Internet to Witness.**
