What happens after 2012

### UNITY OF PHYSICAL AND SPIRIT WORLD

[Rev. Moon](#) told his audience that from Jan, 13, 2013, "the Union of the Spiritual and the Physical Worlds" will be established on earth for the first time" and that "[the world] will enjoy tranquility and happiness in the sacred reign of peace." We wondered what that means.

On first place, the science measured a quantum shift, that happened after 2012. From what I could understand, the resonance moved higher while particles became smaller. Meaning, the material world much closer to the higher spiritual resonance, where matter is a bit lighter. This also means that the material world can operate more on the quantum laws, rather than just the stuck physical laws. Surely that has something to do with, "God having authority in this new Golden Age."

There is another major change for us. By the end of 2012, True Father was already in the spirit world. It had to be, so that the two worlds will start uniting from 2013. Now Mother stands as the center of the physical world while Father is the center of the spirit world. The first perfected family stands as the real mediators and owners of the physical and the spirit worlds. Thus, God can start governing both.

In the spirit world there was also a big change. According to the message from spirit world, received from Nelson Mandela; so many of the great historic leaders in the spirit world are mobilized around True Father. In 2014, he explained, the spirit world was preparing centering on Father to substantially descend and start working with the physical world from 2015. Many have experience that around the 3rd Anniversary of CIG (Cosmic Nation of Peace and Unity). Many have started to open their spiritual sensitivity, including me.

### Develop your spiritual senses quickly

Let us be clear; our relationship with God and True Parents is spiritual, not just a brain or thinking matter. In the Heavenly Bible (CSG) we read,

"Faith... includes spiritual experiences. Therefore, people who join the Unification Church usually have such spiritual experiences. In fact, they must have these experiences." CSG

"You are relying only on your five physical senses," Father proclaimed, "I hope that you will open your five spiritual senses as quickly as possible so that you may clearly perceive how the providence of Heaven unfolds.... bear in mind that the providential timetable, which proceeds according to an absolute standard, will not wait for you indefinitely." (Peace Message)

This is very important. If we don't perceive the providence correctly we will lead our life in a wrong way. Father says, that spiritual senses are important for that.

"Spiritual leader cannot do their work without having spiritual experiences... Is God in the midst

of those books?. God dwells in a mysterious spiritual realm, you have to connect with Him through the Holy Spirit." - Father

### **The original ideal**

"If there had been no fall, earthly people would be able to relate with spirits just as naturally as they relate among themselves." [Divine Principle](#) p. 135

True Mother's explanation 1992: "If the leaders don't open their spiritual senses quickly they are just blind leading blind". She explained 4 ways to quickly develop our spiritual senses:

How to develop our spiritual sensibility

- (1) Read the Truth daily
- (2) Fall asleep and wake up with thoughts about God
- (3) Live for the sake of others... Life of Service
- (4) Carry True Parents picture everywhere with you
- (5) Pray, Pray, Pray...

### **Know the reality of the spirit world**

True Mother 1998: "We are ignorant of our most important responsibility. That responsibility is to prepare for eternal life. If we are clear about the concept of eternal life, and if we accept its reality in our hearts, then we can lead our children and our families properly. But in truth, most people are unsure if the spirit world even exists."

Divine Principle explains that without developing our spiritual sensitivity we cannot feel God. "The sensibility of our spirit man is to be cultivated through its reciprocal relationship with our physical man during physical life on earth." DP 62 So without physical body becomes impossible.

Next, the Divine Principle explains that this sensibility is required to be able to perfectly experience God's love. "Man was made so that after his perfection, he could breathe God's love perfectly. If a spirit man is unable to breathe this love perfectly, because of his sinful conduct, he feels pain when standing before God.." DP 63: [Principle of Creation](#)

### **Free Your Spiritual Mind**

Our spiritual mind is connected to God and the spirit world, yet it's subjugated under the prison of the limited, ignorant physical mind (our brain). If we don't develop our spiritual mind to be the subject, by rejecting the physical mind's lies, we are enemies of God -- objects of evil spirit world influence.

The physical mind constantly objects, finding rationalizations 'why spiritual senses are not needed' and 'why all ideas of the spiritual mind are wrong'. This is the origin of the Four Fallen Natures. Simply said, physical mind cannot feel God and see God's view point. This is the origin of all evil.

### **Physical Mind as an Instrument of Satan**

Notice how people who say, "oh, I don't believe spiritual people", "oh, that's dangerous", "oh, I saw many problems from this."... are actually denying Father's words. The motivation for their words is what wrong may happen if we follow DP and what Father says. That's the stupid Physical Mind talking; it's self protecting fear and trapped emotions from Satan's victories.

Of course if you start doing what Father says, some attacks will come trying to stop you. DP explains that will happen. But if you don't give up and victoriously overcome these attacks - that's where you'll enter in God's realm, that's when you'll mature to perfection and develop real sensibility to God. Sure many had failed once challenging Satan and trying to go beyond his dominion, but that should only determine us even more. Well, physical mind is fast to compromise and unite with Satan's objective, to block us even try it. How immature!

### **We end in Darkness if Spirit Senses not Developed on Earth**

Divine Principle is clear - Without developing our spiritual sensibility on earth we cannot feel God even in the spirit world. According to DP, that Spiritual sensitivity must be developed in one's physical life. That requires mind/body unity. In fact - it's essential part of our spiritual growth. People live in darkness

in the world beyond, because their "spiritual senses never having been developed on earth made them alike insensible."

"All was so dark in this place... due to the almost total blindness of these poor spirits, whose spiritual senses never having been developed on earth." [A WANDERER IN THE SPIRIT LANDS](#)

In his book, dictated from the spirit world, Francezzo explains about the dark realms in the spirit world. The lower-undeveloped spirits live in darkens, because their spiritual senses were not developed on earth. You see, the Principle statement is not a joke. It concerns all of us. We will live in brighter realms only if our spiritual senses are being developed in relationship with the body. When our spirit is high, we are 'dimly discernible, even totally invisible' to the evil spirits. So they cannot harm us and we need no protection, Francezzo explains.

"All was so dark in this place... due to the almost total blindness of these poor spirits, whose spiritual senses never having been developed on earth made them alike insensible to all around them, just as those born on earth in a state of blindness, deafness and dumbness would be unconscious of the things which were apparent to those fully endowed with senses. In visiting the atmosphere of the earthly plane, which was a degree more suited to their state of development, these poor spirits would still be in darkness, though it would not be so complete, and they would possess the power of seeing those beings like themselves with whom they could come into direct contact, and also such mortals as were in a sufficiently low spiritual degree of development. The higher and more spiritualized mortals, and still more the disembodied spirits in advance of them would be only very dimly discernible, or even totally invisible." [A WANDERER IN THE SPIRIT LANDS](#)

### **The Sensibility When Our Spirit Matures**

So what is beyond that point? Once we develop our spirit and reach mind and body unity, we will naturally start to perceive the spiritual reality even with our physical senses. As [Divine Principle](#) explains:

"When... the spirit man becomes a divine spirit... the spirit man can feel and perceive everything in the invisible world. Since all the spiritual phenomena thus perceived by the spirit man are reflected and echoed in the physical man, presenting themselves as physical phenomena, man finally comes to feel spiritual phenomena even with his five physical senses." DP 62: [Structure of the Spirit Man](#)

Spiritual sensibility, in DP sense, is not about opening out spiritual senses. It is more about the growth of our spirit. When our spirit matures it has the ability to sense the truth, sense God's heart and the heart of the others etc. Thus you become connected to God. You also become aware of all spiritual phenomena, but without opening your spiritual senses, because DP explains; the body directly responds to the information from the Spiritual Mind (which is already matured enough to be Subject over the Physical Mind).

Please understand. Now, after 2013, more and more of our members will start reaching this point. Those who don't, will suffer, get more negative and start accusing (like SC). Father predicted that. Now the Age for the Ideal Peaceful World (CIG) is open. We should cut off from the Satanic world; Stop living in the world of fear, selfishness and resentments; The way to perfection is opened and this is the realm of heart, love and living for the sake of others.

### **Perfection is to Perfect True Love**

You see, perfection is not about knowledge or power. It's all about our level of heart. See [the chart of Heart Resonance](#); What level of Resonance you breath in? Simple example of how our heart level affect us; You feel true love, you give true love. You feel hate, you act with hate. The level of Perfection is the level where we resonate with true love. It is where we breath God's love.

"Make yourself a tuning fork, resonating with and vibrating along God's frequency. Resonate with God's unselfishness." - Father [On Spiritual Help](#)

"The fastest and only way to rise your frequency is to stop judging everything and open for gratitude. Choose love, choose happiness. You have to clear the judgments blocking you. Any judgment can limit what you're pulling in your reality. Basically that means, to stop the analytical part of the brain. Your heart get's free to be subject." [Resonance of Love](#)

This resonance is at the Completion Stage, which is the the stage of Will - Goodness (meaning actual perfection of Living for Others (LFSO)); The stage where GOD CAN FREELY ACT THROUGH US, because we automatically respond to his Heart. Millions around the world are working hard to restore a nation in that resonance of heart. Read, [THE MODEL FOR THE IDEAL PEACEFUL WORLD](#)

## **Emotional Sensitivity to God's Heart**

We live in a world of magnetic fields. Do you know that the heart produces 5000 times stronger magnetic field than the brain. Human heart contains intelligence independent from the brain, that guides our lives. As the Principle explains,

"Human beings are endowed with emotional sensitivity to the Heart of God... so that after his perfection, he could breathe God's love perfectly.." - Divine Principle p. 80

Our Heart is the essence and the center of [our Spirit Mind](#), where God dwells. Read, [Our Emotional Sensitivity to God's Heart](#)

"God is at the center of your heart... God is the root of love... we cannot feel Him... because He and we are one. He is one with love... to manifest God, you have to spread your love in all four directions." CSG Book 1. God p.28

Learn Heart Resonance through lectures on [Unification Family Therapy](#). Heart Resonance Workshops are offered to encourage you to spread the message of Resonance of Heart in your family and community.

In the last 17 years we have developed a vast and very deep research on Unification Family Therapy (UFT) which in its essence is a Heart Resonance Therapy (HRT). It helped many struggling couples to see beyond, get out and get free and full of enthusiasm. Try! Invite us for a workshop or just few lectures.
