

My experience with Sanctuary Church - Hyung Jin's Strange Theology

The first thing that struck me, was; Sanctuary Church folks don't talk like members...they don't think like members, anymore. You can imagine what will happen in the future. In time nothing will be left from True Father's words and tradition. Hyung Jin already had destroyed it.

Hyung Jin killed everything precious from the believes and tradition True Father left. Read [Hyung Jin's Propaganda](#). H1 waged external attack on property (Money), while Hyung Jin (H2) waged internal attack on core UC theology (Ideological). Obvious providential significance; obvious repetition of early Christian problems; and surely needed to overcome them now, otherwise future generations Moon could destroy everything with similar financial or ideological misuse.

So Painful. God's Heart is broken! Tell me at list one precious thing from True Father's tradition that Hyung Jin didn't destroy? They replied with the accusation that we hate Father and bunch of Bible and Jesus stuff. I didn't get it. Are they talking about another 'true father'? Why are they [Turning Against Everything Father Ever Said](#)?

Soon I came to realize that they changed True Parents with other 'true parents', just to find rational explanation after denying the original True Parents. Otherwise they have to admit that they deny True Father's words, but changing the meaning they can go around that. Read, [Hyung Jin to eliminate and supplant the True Parents](#)

I wondered, how possible they do it and don't feel conscious how evil and wrong it is. Do they really believe True Father turned into evil spirit, going around and accusing Mother, desperately searching for new wife in sp.w.? Why are they so stuck on [changing CSG](#), meanwhile denying it completely?

The discussion with Sanctuary Church clique felt like [being in Hell](#). Same attitude I've seen in the [Gossiping realm of Hell](#). You say something, they attack, twisting your words and creating lies about you, to destroy your personality, instead of rationally debating the issue. You wonder, how evil their hearts are to create such lies. What's wrong with their minds and hearts. Actually the more you deal with them, the more you realize, [their hearts are the core of the problem](#).

Sanctuary Church guys told me, True Mother will not be in Heaven! Such a contradiction with Father's words; Read, [57 quotes about True Mother](#) in CSG. What Sanctuary Church says, means that Heaven is not even open. So True Father is in the Paradise.. they didn't want to specify. But this also means that CIG didn't start, because of supposed 'Mother's failure'. Now we all depend on Hyung Jin - but he is teaching us resentment, (SC teaches to judge and hate)... So we are all doomed! Read, [Thank you Hyung jin - you fixed Father](#)

I asked them, why Hyung Jin calls his mom 'lesbian' and repeats that throughout the whole sermon, again and again. They answered, "this is Theology".. even accused me for being ignorant. Labeling, labeling... so difficult to get any logical information from them. You can recognize what kind of sp.w. is behind their actions.

Another thing what struck me, many of them didn't talk like normal people. They seemed possessed.. like insane people who talk irrational, disconnected things. Did you see movies with zombies that come from everywhere and attack you. That's how it felt dealing with them. Read, [Hyung Jin - King SOCIOPATH](#)

Another strange thing. Everything what they called heartistic and considered fascinating seemed to me so scary, ugly, evil, vicious and unprinciple.. but for them was 'heaven'... Bizarre! [Gossiping and accusations](#) are the poisonous-vitality elements they feed on. They need them like drug addicts.

You know how negative people constantly talk of how bad their day was; Or constantly describe some past problem with absurd details. They are so stuck in it. At the end, this becomes their identity; if this problem does not exist, they will have nothing to talk and live for.

Here is an example; I saw Hyung Jin's wife video sharing about True Mother. It was [professional gossiping](#)... soft, heartistic, sweet... but talking all kind of twisted inner stories, twisted to make Mother as ugly us devil. But of course, I've tried to listen for facts. They got me to understand the real picture. Without them sounds scary. But facts were so innocent and normal things, that didn't support the ugly picture she was so manipulatively describing.

Fact 1: True Mother just mentioned that she felt bad True Father talk about her to members.

Fact 2: True Father's conditions were deteriorating... TC from spirit world said they are waiting for him.. Hyung Jin didn't have faith. True Father could transit to the sp.w. at his home, not on systems.

But obviously Hyung Jin does not believe sp.w. He couldn't accept... started accusing. Went against True Mother, so she asked him to go cool down for 3 years. But even than he couldn't overcome his arrogant, accusing attitude.

One thing I couldn't understand yet. How are they planning to build CIG? I asked them if they are Witnessing. They said, "No! Only to members." Hmm, OK! So they consider the Multiplication of Evil to be form of Witnessing. Wow! How can that help building CIG. I'll tell you how. They will remove all negative, unfaithful members from the Unification Movement, so that we can finally build a loving community. Isn't it true, that when we have negative, physical mind - gossiping people among us we can't build any functional, positive community. Exactly these blocking people Hyung Jin is removing from our midst. I guess that's also a way to help True Parents, though unconsciously.
