In this world full of problems and walls that separate people, the purpose of the conference was to give suggestions on how to relate better to each other on all levels: parents and children, husband and wife and to the people around us, in order to give more value to others and to ourselves.

The conference was introduced by Gianinna Figus the local President of WWFP Bergamo who gave a presentation of the local activities of the WWFP both past and present. This was followed by a video showing the work of the WWFP worldwide.

The main speaker, Doctor Gigi Onorina then spoke on the theme showing how kindness can be a revolutionary force in bringing change in this world.
