

Visit of Special Emissary Mrs. Lan-young Moon and Mr. No-hi Pak

Ljubljana, Slovenia, 26. - 28. July 2014

Special Emissary for Eastern-Europe Mrs. Dr. Lan-young Moon and her husband Mr. No-hi Pak visited Slovenia, joined by Rev. An from 26th to 28th of July. Slovenia was the 8th country in their recent tour.

On 26th, Saturday we welcome them in our Peace Embassy with an ancient tradition of offering bread

and salt representing the essence of life. They looked every single corner in the house, even the bathrooms and toilets and were amazed. The style, colors, brightness, everything they liked.

Our Korean and Japanese sisters prepared delicious Korean dinner, which menu turned out to be the favorite of Mr. No-hi Pak.

On 27th, Sunday we were especially grateful for the opportunity to celebrate the 24th Chil Il Jeol and 18th Chil Pal Cheol and have Sunday Service with True Parents representatives. After Holy Day celebration and Sunday Service Mrs Moon said, that she felt wonderful bright and beautiful atmosphere. Together they expressed: "This is a real Peace Embassy, this is what Peace Embassy should be." Many times we hear the same also from our guests how good they feel and how nice is everything. Often we ourselves don't see and value our Peace Embassy like this, even though it originates from the seed-offering of True Mother and lot's of our donations.

After sharing lunch in the dining room the sisters of the WFWP-Slovenia could report and receive direction and ideas from our Special Emissary.

For the whole community it was such an honor and joy to be with Mrs. Moon and Mr. Pak, listening and sharing, learning their wisdom, which also Rev. An mentioned in his Holy Day talk about our elder members who were in all times – in good and bad - loyal to True Parents and working for the providence. We could feel the caring heart of our Heavenly Parent brought to us from True Mother in the form of encouragement, gratefulness with smiles and tears.

The next day before departure we could make a short sightseeing in Ljubljana, looking on the city from the castle and wishing, that this country even though small, but HP's and TP's hopes can come true.

Mrs Moon wrote her belief to Slovene B&S: "God help those, who help themselves!"

Mrs Moon and Mr Pak liked so much the »greenness« of Slovenia, the forests, bushes, grass everywhere. They repeated so many times how it is fresh and alive. Mrs Moon said, that she will call Slovenia the "Green country". They mentioned few times how important will be in the future such healthy places on the Earth, when all the nature is mostly damaged.

After they departed on 28th, in the time of our regular evening Ahn Shi Il Service we tried to find peace in ourselves and reflect on this precious visit of True Mother's Emissary. We could be moved and amazed hearing someone to stand and love True Parents with loyalty and dedication through 60 years! Creating the new world of CIG, - which we cannot see yet - is not easy, but those who give themselves in heart and action are alive, grateful and happy more and more as time passes.

Special thanks for everyone who prayed and volunteered for the different tasks, that everything went well and those who prepared food and cleaned!

Special thanks for our children bravely performing their music- and sport talents and for the beautiful picture to Mrs Moon!

Let's allow the love of True Mother flow in our life and make it blossom without the barriers of hatred, resentments, complains, separations, impurity and misusing things!

Erna Košmrlj
National leader of Slovenia
