

Second Generation Ten Years Blessing Anniversary Celebration in Oslo, Norway

Steinar Murud
February 10, 2019

Three 2nd gen couples organized a party to celebrate their 10 years Blessing Anniversary. This was a private initiative. They planned and financed the event themselves and invited over sixty of their friends to share this special day. They also invited their guests to renew their wedding vows together with them.

The program began with a delicious buffet lunch. There were quizzes, a photo booth and activities for children. There was also a slideshow with photos of the three couples from the time of their blessing up until today (each of the couples now have two children).

The main program included a short testimony from each couple and video greetings from family and friends abroad. The program concluded with an explanation of the meaning of the Blessing, a holy wine ceremony and benediction prayer. Finally the three couples cut the wedding cake together!
