

## Oslo, Norway Family Workshop for All Ages

Steinar Murud  
August 2, 2021

Our Norwegian community spent 3 days together in a lovely cabin deep into the Oslo forest (30th July to 2nd August).

The participants ranged from 1 to 75 years of age and together we created a beautiful family spirit through sharing, singing, and playing games in nature.

We received daily messages from elder participants about valuing our Heavenly Parent and building the heavenly kingdom in our families.

This workshop was a great way to rekindle our community spirit after a long time apart and enabled our younger members to gain a closer relationship to our Heavenly Parent and each other.

We received great feedback from participants of all ages, but the highlight was the message from our elder member of 75 years who said this was the best workshop experience of her life.

The memories made together these days will be cherished for a long.
