

Let's Wake Up

A Personal Reflection

For as long as we have been in this movement, some of us might have believed that the woman to occupy the position of True Father's wife is supposed to be an ignorant sinful woman that True Father found in the lineage of Satan, cleaned her up, and raised her up to glory as his shadow. What we have not realize is that even though that could have been a possibility, it would have taken True Father forever to do that. Fortunately, True Father had the foresight and determination to eagerly, but yet patiently, look for the woman prepared by heaven.

True Mother is not just the wife of Reverend Sun Myung Moon. Those who consider True Mother as nothing but the wife of Rev. Moon err significantly in their understanding of the mission of the True Parents of Heaven, Earth and Humankind. True Father would not have accomplished as much as he did had he married an ignorant woman he found in the ghetto of hell.

Those who believe that True Mother is nothing but just the wife of True Father do not understand the complexity of salvation. They must believe that salvation can only be provided by a man alone—A man who stands in the position of the Messiah. What they do not realize is that salvation is a couple's business. It is not a man-alone's business. It requires an Adam-Messiah and an Eve-Messiah.

From the time True Father started his mission, even though he was alone in walking the course of the Adam-Messiah, he had collaborations. At first, he had the collaboration of Jesus. As much as possible, Jesus worked with him from the spiritual world. This does not mean that Jesus did things for Teacher Moon; it only means that whenever Teacher Moon needed consultation, he could always consult with Jesus. After Teacher

Moon received the Blessing in 1960, he went beyond the individual level of the mission of Adam-Messiah. From this point, his wife became the person he consulted the most with. And this is not simply just because his wife is his marital partner, but because his wife is the Eve-Messiah—his messianic partner.

Who else is furthering the fulfillment of the work of the True Parents like True Mother is doing it? Who else is solidifying the legacy of True Father like True Mother is doing it? Some people may look at it as a waste of money and resources as True Mother is building all these beautiful edifices in Cheongpyeong. But think about this. How much money and human resources did True Father invest for the sake of helping Christianity understand their true identity? Were there people who complained about the amount of money and human resources that were being invested by True Father? Of course, there were. Where are we today? Today, using that foundation, True Mother has brought that providence to fruition with the establishment of the World Clergy Leadership Conference in 2019 and the Heavenly Parent's Holy Community in 2020. And what else has True Mother been doing?

From the time of the ascension of our True Father, True Mother has dedicated her life to fulfilling everything that the True Parents are supposed to do, and more. With the collaboration of our True Father who is in the spiritual world, our True Mother has been making sure that what our True Father started and what our True Father has accomplished during his lifetime will not be squandered by the descendants of the True Parents—the restored humanity.

You see, it is my understanding that the True Parents are only supposed to restore the family level providence, and then, solidify that victory by planting the seed for the national and world level providence. After that, the subsequent generations should take care of building on the foundation left by the True Parents. Remember that the True Parents come to restore the positions of the original Adam and Eve. As such, restoring

the family foundation is the core of their mission. Once that is done, their mission is done. But what have our True Parents done?

Our True Parents have restored the family foundation. True Father saw three generations of the True Family during his lifetime. Both, True Father and True Mother, could have retired long time ago if they chose to. But why didn't they? I believe that they continued to work because they knew the danger of retiring simply because they have completed the restoration of the family foundation. They had to liberate God at the universal level. This happened on January 13, 2001 with the coronation of God in Cheongpyeong. And then on December 22, 2003 in Israel, they coronated Jesus Christ as the King of Kings. All of this would not have been possible if the True Parents did not work hard to extend the fulfillment of their mission to the universal level and become the True Parents of Heaven, Earth, and Humankind on February 14, 2005. Even after fulfilling all of that, our True Parents continued to work still hard as if they did not fulfill anything at all. By the time True Father transitioned into the spiritual world, he achieved more than his mission of the Adam-Messiah entailed. This is also why True Mother keeps on pushing forward even as her physical body keeps suffering the consequences.

Looking at how determined and focused our True Mother is, there is no doubt that she and True Father set a target that we all don't know about. They set an agenda that we all don't know about. All that we see is True Mother cutting ribbons here and there, True Mother flying to this country and that country, True Mother inaugurating this organization and that organization, etc., etc. All these things that True Mother is doing are for the sake of fulfilling the agenda that she and True Father were working on together when True Father was physically alive.

Folks, True Mother is not doing all this for herself! Absolutely Not! True Mother would have been just fine with calling it a life and joining True Father in the spiritual world. What is this life to her without True Father? Think about it. No, seriously. Really think about it. Why is True Mother still alive and fighting tooth and nail if not to fulfill the agenda that

she knows True Father wanted completed? For whom is True Mother doing all this? For whom is True Mother suffering this much? For whom is True Mother going through insults, name calling, disrespect, character assassination, etc., etc.? How is True Mother responding? By carrying out the agenda that she, as the Eve-Messiah, and the Adam-Messiah agreed upon. Looking back, how did True Father respond to the barrage of criticism, insults, name calling, disrespect, character assassination, assassination attempts, etc., etc.? By carrying out the mission that he, as the Adam-Messiah, and the Eve-Messiah signed up for and the agenda that they both agreed upon.

Oh, yes! About True Mother's expenditure of money and human resources on expanding the Cheongpyeong Complex. In short, True Mother is building all those elegant edifices and everything else in Cheongpyeong for the sake of the substantiation of Cheon Il Guk. She is basically establishing a physical hub for Cheon Il Guk. While we are thinking only about today, she is thinking about the far future as well. What would the many generations of the future look back to in order to anchor humanity? That's what our True Mother is thinking about. That's what is driving our True Mother. That's what is keeping our True Mother awake at night—Anchoring the work of our True Parents so that no generation will squander it. Putting in place something that even those who live a thousand years from now can use to connect themselves to the True Parents of Heaven, Earth and Humankind. Think of the role of the Arc of the Covenant if you might. Only, this time, at a universal level.

What did our True Father do when people criticized his approach and dedication? He continued to work and let his work speak for itself.

“I would like to share something important with you. I have had many experiences in which I was misunderstood, yet I remained absolutely silent without protesting and stood quietly on the side of God, giving Him my utmost loyalty and knowing that He was on my side.” (True Father, **Address to**

Conference of U.S. and International Leaders, September 20, 1976, Tarrytown, New York)

What is our True Mother doing as the same thing is happening to her? Soaring majestically as a crane, our True Mother is flying above the fray. She continues to work and let her work speak for itself.

So folks, Let's wake up and become aware of our True Mother's true identity!
