

2nd Gen 2 Day Divine Principle Workshop

Tirana, Albania, 7. – 8. September 2013

Following the series of 2 day workshops for children, we decided to organize from 7-8 September a workshop for children of 2nd gen, including 1 not a 2nd gen. As always, they came very joyfully to workshop place, as they know well each other, and happy to know that this time was only the eldest ones from 9-14 years old, all boys. As staff were parents of children, Sokol, Katarzyna, Marjeta, Zsuzsana, Altin and Drita, who covered lectures and activities.

The workshop was the continuation of the other workshops. Our focus this time was “Fall of Man”. The lectures were divided into small parts and details to help children understand the key points of the Fall. We explained the main symbols of the fall, the cause of the fall, consequences of the fall, midway position and the fallen natures. Their participation was very active with questions and discussions with the lecturer and other participants.

At the end of the first day, children enjoyed the burning fire and baking corns. They have much more energy when they are together, but they could be on time and focused during lectures.

The MC, Sokol Rexhepi, created a very active and joyful time singing different songs before lecture start. Zsuzsana Sulejmani attracted their attention by a theater show with dolls made by herself.

There was an interesting topic “internet addiction” which explained the use of internet, cell phone or TV more than needed.

We would like to thank Mr. Tim Atkinson, for providing materials for such workshops, making easier for us to arrange topics.

It is true that we need to try all together to have good results, but especially I would like to thank Heavenly Parent for giving such possibilities to have workshops for our children.

Report by: Drita Rexhepi (2nd gen responsible in Albania)
