

One Day Divine Principle Workshop

Tirana, Albania, January 31, 2015

By Manjola Vasmatics

Vision 2020 seems really big, but for each brick we put on building it, the help of our Heavenly Parent and spiritual world becomes really visible.

A good brick was also the 1 day seminar on DP where 10 new guests attended. 7 of them successfully concluded this seminar, studying the Ideal of Creation and the Fall of Man in four sessions.

The participants expressed interest and curiosity about the topics. It was amazing to see new guests that wanted continuously to hear the Truth and keeping notes during the lectures. At the same time we had one guest which seemed that spiritual world nailed him to stay until the end, even though it was not so easy for him to concentrate, he could stay until the end.

The lunch was cooked and served with a lot of love. Games helped to create unity between the guests and

members creating a warm atmosphere. This part created the environment that participants were feeling free to show their talents on singing, painting etc.

Most important is that most of the guests are coming regularly to study the remaining lectures of DP.

We are looking forward that they will get to know True Parents!
