

FFWPU Tirana, Albania's Cheon Myeong Worship Service-Concert

Gabor Vasmatics
October 23, 2024

In Shin Albania, Shin Chul Cadet and his UPA-HTG team of four other talented cadets introduced us to the Cheon Myong worship choir. The community was inquisitive to participate and experience worshipping together. After holding it three times, members enjoy it and receive much grace. We only hope to inherit this great tool of coming and worshipping together in a beautiful atmosphere of heart and sincerity.

Shin Chul cadet explained that True Mother named Cheon Myeong, meaning The Heavenly Order, to this worship initiative to revive younger generations. True Mother guided Shin Chul cadet and his brother that through worship, they should first try and fulfill the hopes of Heavenly Parents and True Parents, secondly worship with the heart that we can all come together as one family, and thirdly, really believe in what our Heavenly Parents and True Parents want.

Also, at first, Cheon Myeong shared that he felt that worship could help change us within and help with the atmosphere. He encouraged us to sing and worship together to have the heart and think and pray for members worldwide or those we do not know, and this way could help develop the heart of living for the sake of others in our daily lives. He emphasized the importance of being completely honest and opening

ourselves up to our Heavenly Parent and True Parents as we worship and create the atmosphere where we share our deepest emotions and feelings.

The audience was always fully captured by the spirit and love of Heavenly Parent uniquely. We felt we could honor and express our love and heart to Heavenly Parents and True Parents as a community through the songs. Shin Chul Cadet poured out all his love, passion, and energy in giving a 20-minute message on ChamBumo Ron or other insights he had while attending True Mother. Members felt the heart and motivation of True Mother through his speech. He conveyed it nicely, with the right words and a correct and filial heart.

We are grateful to have been blessed with the Cheon Il Guk Embassy in Tirana so members could gather in person for worship there, which was also live-streamed for the whole EUME region.

We hope to bring more significant victories for the opening of Cheon Il Sanctum and Cheon Won Gung.

Sincerely,

Manjola and Gabor Vasmatics
National President of FFWPU - Shin Albania
