Young leaders smile brightly at the Youth Leadership Training Program in Albania

A First Step in Raising Leaders of the Next Generation

The first session of a Youth Leadership Training Program was held in Korçë, Albania, on HC 3.13 (29 April).

High school and university students participated in lectures, discussions, and team activities designed to strengthen their sense of community.

The eight-session program aims to develop future leaders for the local community while providing young people with education in the True Parents' words.

Organizers hope participants will grow into next-generation leaders grounded in strong moral values and leadership.
