Rev. Im prayed that '...we, all the trainees, were able to complete this course for 3600 new tribal messiahs with one united heart because the elders of 72 couples, 124 couples, 430 couples, who are over 70 and 80 years old, took the initiative in this workshop and became the center...Heavenly father, we, all 3600 new tribal messiahs will exclaim towards our tribes as the Israelites exclaimed and went around the Jericho and then the Jericho collapsed. Now we will go forward to the victory of the Foundation Day constantly with our tribes.

The certificates were given to 8 representatives of all trainees, former president Kyungjun Lee representing 4 saints, Rev. Younghwee Kim representing 36 couples, Rev. During last 30 days, you have overcome many difficulties, the heat and the flu, and you have become new tribal messiahs through the Principle Ontology education course... Lets give a grateful hands to Rev. Jeong Ok Yu who led us into the world of grace and inspiration, and made us resurrect spiritually."

He continued his speech with the message from True Parents and International President Hyung-Jin Moon. "True Parents said ' If we live our life which True Parents can thank to and sympathize as God and True Parents look at us, God will work on us and help us. If we go forward with a new determination, belief and sincere heart, Heaven will certainly work on us.' and International President Hyung-Jin Moon said 'I'd like to give a congratulatory message to you who had the certifying ceremony of 3600 Principle Ontology special education course and the starting ceremony. I know very well that your 120 bow devotion during the course have a lot to do with the proclamation ceremony of entrance into the fourth dimension held in Chung Hwa palace on April 16th by the HC. True Parents said about remaining responsibility of 4% on the foundation of victory of 96% during the proclamation ceremony. He said 4% meant the realm of four generations, and the realm of four generation of True Families centering on True Parents took place together in the ceremony. Also, True Parents said that it was the time that True Parents and Heaven and True Parents of Heaven, Earth, and Humankind have settled completely during the proclamation ceremony, and we would become the Chun Il Guk people when we fulfill over 100%. In year 2013, on the way to the Foundation Day, I hope that you, who are the New Tribal Messiahs, would restore the realm of four generations, which is our 4% responsibility, and as the realm of four generations of True Families and True Parents became one with Heaven and True Parents of Heaven, Earth, and Humankind, you, new tribal messiahs would unite on the foundation of sincere devotion and become the precious patriots of Chun Il Guk, who would make a knot of the providence'.

After the speech, it was continued by a speech and benediction prayer of Rev. Jeong Ok Yu. He said "...Now we have to live by the words. We have thought that we've listened to the words and lived by the words, but we have not lived by the words. We have repented a lot during this course. I think that we should not live like that any more on the earth, so that we could light up forever the standard of having connection to Father through the heart in the eternal world. Father, please do not forget anytime that you told us 'Become a luminous body and live as a light' when we started this education course... I think this certificate will be the first and the last certificate in this human history. This certificate must be the most proud certificate not only in this earthly world but also in the spiritual world. Since the Heaven educated us and gave us the certificates with such proud purpose, we must absolutely not live shameful life in front of this certificate. Will there always be easy road only in front of our journey? There will be difficult roads. Whenever you face the difficulties, I hope that you will look at this certificate and remind many experiences you went through in order to receive this certificate for 30 days and get encouraged up again and go forward again and determinate again.

Lastly, Rev. Pyungrae Moon gave three cheers of Eog Mansei and the closing ceremony of Principle
