1.3-TL From False Love To True Love

Cheon Gi Year 3 HC 7/3 (Solar 8/20/12)

I. Introduction

A. Let us inherit God's True Love and Words

In the UC (Unification Church) we say "let us inherit the True Love of God". Summary of UC means it is the place which bequeathes the True Love (TL) of God

B. True Parents defined

1. inheritors of True Love from God

2. Perfected True Love

3. Bequeathed that TL to us.

That is how we can define TP. Father talks about TL in reference to sexual action within the couple's marriage blessing, and also refers to TL as sacrificing oneself for others, so how can we reconcile these two statements? The starting point of God's TL is absolute sex between God's son and daughter after they are blessed in marriage by God and have become one with God, forming the trinity. If there is someone who lives for others but practices free sex, that is not true love. We need a clear understanding of absolute sex, and continue to study.

C. True Parents = True Human + True God

Many people think that TP are a creation of God. They think TP are only human beings like we are. But recently since 2010, TP became the substantial God. What % are God, % is human? Answer is that are 100% human and 100% God. So we can see God only through TP. In the spirit world, if you want to see God, who will appear? TP

God and TP became one through absolute sex. This is why we see them sometimes as God, and sometimes as human beings.

D. The core of perfection on the 8th time after the seven deaths and resurrections is True Love.

Jesus went to the cross for the sake of human beings, and TF went to prison six times in order to restore human beings. TF in going to prison was going into hell itself.

How did TF survive prison? By practicing TL in prison, even Satan had to acknowledge him.

II. God is Love (9/5/99)

A. Perfection of True Love is the perfection of Kingdom of Heaven in Heaven and on Earth 9-1-99

God came to TF between 2 am and 3 am and said God is love, then TF speaks 9-5, explained the reason why. Same as John 1, but in Christian theology it is hard to find a thorough explanation of why God is love.

B. "God is Love. Love is God."

C. Centering around core attributes, "God is Love"

D. Identification of the 4 core attributes of God

E. Definition of Love is revealed in the Complete Testament Word (Divine Principle)

Internal Attributes	Absolute	Unique	Unchanging	Eternal
External Attributes				
Creativity	Absolute-Creativity	Unique-Creativity	Unchanging-Creativity	Eternal-Creativity
Subjectivity	Absolute-Subjectivity	Unique-Subjectivity	Unchanging-Subjectivity	Eternal-Subjectivity
Relationship	Absolute-Relationship	Unique-Relationship	Unchanging-Relationship	Eternal-Relationship
Unification	Absolute-Unification	Unique-Unification	Unchanging-Unification	Eternal-Unification

There are 16 in total.

In other words, there are Absolute creativity, absolute subjectivity, absolute relationship, and absolute unification, then there is unique creativity, etc.

This understanding is important to know the deeper meaning of TF's life course. TF revealed this in 1999. When we say TL, what is the ultimate destination? Unification. So it is absolute unification, unique unification, unchanging unification and eternal unification. This is God, husband and wife becoming one at the core, and through their union the spirit world and the physical world become one, producing joy for God and Humankind which is the original purpose. It is through unification that the peaceful ideal world

comes about.

III. Internal Four Core Attributes of God

A. Absolute, Unique, Unchanging, Eternal

1. 'The 2nd Jardim Proclamation ' (8/7/98, Jardim, Brazil)
2. The meaning of absolute, unique, unchanging, and eternal We can understand by thinking of the opposites of these words. Relative means more than one. Absolute means one. Relative means changeable and momentary. So the absolute value unchanging until when? Until eternity. 3. God's attributes are connected to mankind through blood lineage (8/1/96) Before the fall, A_E attributes were also these in relation to HF. At Fall the connection was cut and they could not relate to God.
4. The smallest unit of relationship is family (5/3/97) not the individual. Why? Because of relationship, because of God's attributes. In fallen world, the individual is basic unit.

Because God created human beings in his image, man and woman.

All of God's attributes are organically related or connected. So the word absolute includes the other 3, unique, unchanging and eternal.

B. Absolute, unique, unchanging and eternal attributes are organically related (6/1/09)

1. Absolute, unique ,unchanging or eternal attribute is a prerequisite for one another (4/10/07)
2. Being absolute includes attributes of being unique, unchanging and eternal.
3. Being unique includes attributes of being absolute, unchanging and eternal.
4. Being unchanging includes attributes of being absolute, unique and eternal.
5. Being eternal includes attributes of being absolute, unique and unchanging.

C. Absolute, unique, unchanging, eternal (AUUE) attributes hold a relationship of destiny (8/28/98) meaning

the relationships carry on into the spirit world

1. Absolute, unique, unchanging, eternal parent-child relationship (4/10/07)
2. Absolute, unique, unchanging, eternal husband-wife relationship
this is why you can not receive the blessing twice

3. Absolute, unique, unchanging, eternal relationship among siblings
4. Absolute, unique, unchanging, eternal family These are relationships of the blood lineage and are connected to God so they are AUUE, the meaning of blessed family, and cannot be changed by human beings.

IV. External Four Core Attributes of God

A. Creativity--This was the sole ingredient in the act of creation of the world. All universe including Adam and Eve was made through God's creativity. AE and Jesus did not inherit the creativity of God, but TP did. Once we perfect ourselves, we inherit creativity and subjectivity. What does a co-creator do? Is creativity and subjectivity the same? We have creativity through subjectivity .

1. General understanding

- a. Only ingredient for creation God used to create with
- b. God wanted to bequeath creativity to perfected Adam and Eve
- c. Creativity is AF, AL, AO

God created through these things which are not easily understood in a dictionary. By understanding these terms AF AL AO, we can extract the meaning of creativity.

- d. What is the creativity of perfected Adam? AF AL AO

2. Absolute Faith

God had AF in the design, the blueprint , according to Father's words

- a. God's design of creation
- b. =Blueprint of creation (12/30/01)
- c. =God's principle of creation
- d. The Absolute Faith at the time of creation

What is our absolute faith? Means we have to have absolute faith in prin. of creation, which does not change. God could change the design while it was incomplete, but once complete, and God proclaims it, it can not be changed. Then once God has absolute faith which becomes the AUUE subject of God. So God could not interfere to stop the fall of A-E. Was God able to interfere? no.

- e. AF is not substantial, but conceptual.(10/11/98)

The substance appears when the construction is done

AF is 1-blueprint, 2-the absolute subject of God, and is 3-a concept

3. Absolute Love is a vertical love

- a. Absolute Love is produced when a subject partner and an object partner God become vertically one centering on AF (11/11/96)

Then True Love is when that love is expanded horizontally.

b. Absolute Love is what makes AF and God become one vertically

c. The purpose is and direction of AF and AL

God has to practice absolute obedience to that AF, and that is how AL can be completed.

So the purpose of AF is AL, and purpose of AO is AL

d. AL is still a concept prior to the substantial manifestation of the blueprint.

How is the blueprint substantiated?

This is done through the absolute object God, investing and forgetting over and over repeating this process.

e. Substantialized through input (investment) Investing and forgetting until God himself until God comes into a position of "O" (zero) total self denial when the substance is revealed.

4. Absolute Obedience

a. Substantializes the concepts of AF and AL

b. God repeatedly invested and forgot until His existence was denied (Proclamation, p.73) until when? Example-ant. God continuously invests and forgets until the ant is substantially manifested, and this process is called AO. The process of the creation of the ant is completed. How many yrs. take to create a horse? How long did it take? Humans? God investested the most to create HB, especially the sexual organs, where new life would be conceived. God created the spirit world, then angels as helpers and together with the helpers, God created all things. It took more than 30 million yrs of trial and error to create human beings and all things. Not a simple task. The creation of all things including human beings are a result of God's absolute obedience. Through this long period of time, God finished His creation. Did God want to give up? No. This is why God is AUUE.

c. God did so joyfully, it gave him pleasure to do so and it was the primary focus of his heart of true love.

d. The result of AO is the substantiation of concept into reality (12/1/97 Belvedere)

e. Process of human creation

What was ultimate purpose the creation of Adam or Eve? Eve, because HF is man (essential personality). When God reveals himself in the physical world, it is a man, so God created for women. In the blueprint, God created women first. But in the actual creation, Adam was created first, for the sake of women, (but that does not mean women can ignore men). Men were created first. The Blessed Family is the greatest gospel among all of TF's teaching. AF AL AO

5. Differences among Absolute Obedience, Compliance and Blind Obedience

Most members consider AO as the heaviest burden. This is because we did not understand the meaning behind it. Through AFLO we can become God's temple. Core of AFLO is the sexual organ which must be kept pure.

a. AO involves knowing, followed by self-denial.

Knowing to what to give AO to. Not believing, but knowing, as in the blueprint of the creation. Then it is, substantiating these concepts. Investing and forgetting until there is the substance, not because someone told you to, but because you realize what to do, and you do it joyfully without regret. It is knowing and then denying yourself.

b. Compliance involves knowing, but still being conscious of the self (8/28/98)(soft obedience) but you do not invest 100% even though you have the ability. You invest moderately, take rest when you want to, when there is profit for yourself, it is knowing but not denying yourself.

c. Blind Obedience is self-denial based on ignorance, regarding the blueprint. You are not aware of what the result will be. When you do it because you are Cain etc. If the self is there, it means the archangel Lucifer is there, so have to know clearly the correct standard for motivation.

d. There is no perfection in Ignorance.

e. Only by AO can perfection be achieved. (8/1/96)

Only through AO can we be like TP and God.

We hated AO, but if understood clearly, then HF can be with you.

6. The Core of AF, AL and AO (10/8/99)

a. The Core of AF, AL, AO is the Sexual organ:

Original palace of the five spiritual and physical senses (10/3/02) Creativity can be understood through understanding the sexual organ. Once AE perfect, and create children and this is the completion of 4PositionFoundation, then they create the female angels with their creativity, then AE marry the angels. So after FD, TP will create them. TP will have complete dominion.

- Sexual organ: Original palace of love, life, lineage and conscience (8/1/96)

And of the 5 spiritual and 5 physical senses. Because we do not know the spirit world,

It became a place of discipline.

- Sexual organ: The best self-discipline (12/30/03) - Control of Sexual organ: Foundation to inherit God's Creativity, UC is based on this point.

b. Key to True Parents' success (3/14/97) - TP found their AF. because Father knew his mission from age of 17.

First, to liberate God, then to liberate humanity, then for eternal peace, which is the path TF has walked, purpose and direction have not changed (which is absolute faith)- not resting when tired or stopping when it was difficult.

- TP absolutely loved with AF, which can not be changed.

- TP were absolutely obedient to the AL.

Father set goal 10 hr. fishing for 40 days, so Kodiak even in storm, when warning came from the Coast Guard, F goes out, so F made a boat does not sink. Beginning from God, Father set the direction, then TF AF applied until completion.

- Their Creativity is what made them into their best.

TF set goal based on absolute faith and through absolute

c. What is the greatest gospel of UC?

- AF, AL, AO are not burdens

- AF, AL, AO are the greatest gospel

- The result of AF, AL, AO is the equalization of Creativity between God and Adam and Eve and family

- The result of AF, AL, AO is inheritance

What is creativity that G gave me? Once we have found our AF , then take AF as my subject partner, result is my creativity, which will make me my best.

7. What is my Creativity?

a. Finding my AF that God has given me

b. Taking the AF as my subject partner

c. Repeatedly investing effort and forgetting

d. Until the AF turns into reality- the substantial being is revealed

e. My Creativity will make me into my best.

B. Subjectivity

1. General Understanding (9/13/05) UPF founded TF say evil perishes, when we establish dominion through power of true love

a. Establish the position as a subject partner - Not by military power

- Not by economic power - Not by political power, But by the power of True Love

b. Harmony and Unification will come about through give and receive action centering on TL

2. Principles of Subjectivity

- a. Serve others first according to my Creativity (9/5/99)
Through my creativity then I am giving what I made to others
- b. The core of Subjectivity is to live for the sake of others centering on TL (5/3/97)
- c. True Love is 90-degree love (6/26/90) Using the vertical love and expanding it horizontally
- d. Give what the other person wants in specific
Make what they want and then give it to them.
- e. Give first to others in terms of quantity, quality and speed This is the subject. To do these well.

3. Subjectivity and responsibility of a leader

- a. Protect, foster, and take responsibility for the object partner until the end (1/1/91)
- b. Financial ability, persuasiveness (have to educate) and diplomatic ability (11/29/97)
- c. Three Thoughts of Subjectivity centering on True Love
- d. True Parents, True Teacher(example of Ideal Family) and True King (5/3/97) Core is TL, so need the ability.

4. Do you want to become a true subject partner?

- a. Must die well for the object partner.
- b. Must become a servant for the sake of object partner.
- c. Must become a slave for the sake of object partner.
slave in Greek- no self, meaning is we have to serve them with AO
- d. Wearing the body of a servant with the heart of a parent.

C. Relationship

1. General Understanding (11/17/09)

- a. Not a relationship centered on the subject partner
- b. Not a relationship centered on the object partner
- c. Set True Love as the central point, then both have something they like so from that point they can have a relationship
even in parent child relationship, then both like and have balance and harmony.
- d. Balance (harmony), horizontality and unification (1/1/99)
For example, in parent child relationship neither one is subject, so there

should be a central point where both the parent likes and the subject likes

2. Principles of Relationship

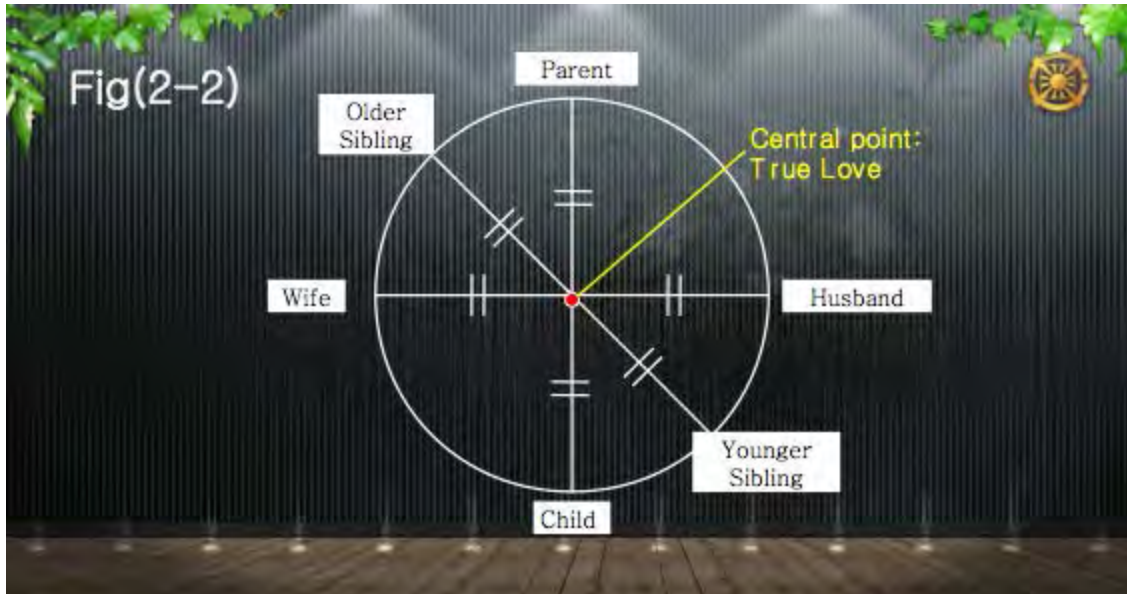

- a. Relate to the object partner based on the foundation of Creativity and Subjectivity
- b. Relationship comes from Give and Receive Action
- c. The principle of Give and Receive Action is to give endlessly without the expectation of receiving
- d. Always adding at least 1 % more to what was received when giving back (8/25/91) This is the principle of relationship
- e. Giving first in terms of quantity, quality and speed without expecting to receive--Whoever gives first creates the central point.

3. How the central point is determined?

- a. Self-centeredness does not lead to a central point, because you will lean to one side and the relationship will break
- b. Principle is to live for the subject partner with the subject partner as the center (True Love)
- c. Condition that my partner is a prerequisite to my existence

4. Ideal family centered on relationship

- a. Parent-child relationship centered on the central point
If parents want to be the center, child runs away, and if child want the center, the parents can not be happy, so they are pulled to one side and can not have balance, so there has to be sufficient conversation centered on what they have in common, in which is the true love of God exists.
True love is absolute value, absolute sex, and how TP became one.
- b. Husband-wife relationship centered on the central point and can become one
- c. Relationship among siblings centered on the central point and become one
- d. Four realms of heart centered on the central point

D. Unification

1. General Understanding

- a. Result of Creativity, Subjectivity and Relationship
- b. Result of the external four attributes of God
- c. Result of the relationship centering on True Love (9/13/05) Creativity comes first, so If we become one excluding God, that is not True Love.
- d. It is not unification through force (9/13/05)

2. Principles of Unification(11/12/91)

- a. Natural consequence of Creativity, Subjectivity and Relationship
Way world unification comes about. World Peace will have to come based on equality.
- b. Result of subject and object partner maintaining the relationship centering on True Love
- c. Result of the relationship of Dual Characteristics of Sung Sang and Hyung Sang centered on True Love (10/8/09)
- d. Result of the relationship of Dual Characteristics of man and woman centered on True Love (11/12/91)
- e. Result of Give and Receive Action centered on True Love (6/26/90)

3. The result of unification is world peace

- a. Equality is a prerequisite for world peace (6/21/02)
- b. Equality is balance and horizontality (1/1/99)
- c. True Love comes to the place where there is balance and horizontality

d. 90 degree True Love is actualized

V. Relationship Between True Love and Heart

A. True Love is the central point of perfection of ideal family

B. Central point: Relationship between parent and child, husband and wife, and among siblings

C. Relationship of Top-middle-bottom, Right-middle-left, before-middle-after

D. Heart is the form of True Love expanded into 8 stages expanding to become the culture of heart. (Diagram)

E. Culture of heart (FP 6) : True Parents

based on the horiz. relationship. wants parent-child relationship

TL bequeathed to us, then we can study and understand TF words

VI. Conclusion

A. True Parents desire a parent-child relationship.

1. Do you want to become friends?

2. Do you want to become a disciple?

3. Do you want to become a child?

4. Key to maintaining a relationship of destiny (8/28/98)

True Parents will take responsibility for us in spirit world
