Greetings SFNP Members and Friends,

May this springtime bring rebirth and continued Blessings in this beautiful season. Mother Earth's giving of life continues to inspire us all. Last month was Women's History Month honoring two National Women Chiefs, First, Chief Wilma Mankiller who received the In Memoriam Legacy of Lifetime Achievement Award. It was presented to her daughter, Ms. Felicia Olaya. Next, Women's Federation for World Peace Vice President Katarina Connery presented the Herstory Award to: Dr. Diane Hardgraves, Shinnecock, Professor of Medical Anthropology; and Mrs. Belva Weston, Crow Creek Sioux, President of Second Look. Finally, Chief Mary Murdock Meyers, Timpanogos Nation, was presented with the distinguished Global Woman Peace Award. Truly, we were all honored and proud to be there. As always our gatherings are offered up to the Creator in prayers. Special thank you to Dine Elder, Co-Pastor of Miracle Maker Church, Roseann Benally for her beautiful Navajo Prayer.

This month, our beloved Hopi Grandmother, Pershlie "Perci" Ami will be our keynote speaker and will talk about her movie "Touch the Water" as she is the main actress. She will be sharing her experience and insights in making this movie. She will also give her perspective on historical trauma experienced by First Nations Indigenous People, and the knowledge she gained through her work about suicide prevention.

We are grateful to begin by welcoming our Ancestors and Creator to our circle with a prayer from Reverend Lynn E. Fritz, MA, Karuk Tribal Descendant (Tribe located in Happy Camp, CA). Also, lineage in the Hoopa Tribe. She is a licensed marriage family therapist and ordained minister, (ICWA consultant and a Native American spiritual practitioner. In addition, James and Linda, Seminole, Oklevueha Church will open and end with the Peace Pipe. As always, may you feel welcomed, and encouraged, and leave full of hope in walking our own path.

Continued Blessings. Toksa

April is Earth Day Month

#5 in a series of six HJ Awakenings

HYO JEONG AWAKENINGS

April 24, 2024 – Week 5 of 6

A crisis is coming to our Earth. While hiking on several high mountains in the Alps, I also explored some ice caves. But the ice caves had begun to melt, and it shocked me. It seems likely that things like this are not happening only in the Alps. Gradually the areas where people eat and live are being threatened. We must save the Earth. Our Heavenly Parent created heaven and earth with the dream of loving humankind. People who first come to know these things must educate others and prevent that destruction. We must begin a movement that attends God, the true owner. That is the only way for human beings to live and for the ecosystem of the Earth to survive.

—Rev. Dr. Hak Ja Han Moon, May 11, 2015,
Hilton Hotel, Vienna, Austria

Have you ever wished you could enter into a mystical state or into the realm of God's grace and look at a flower from that perspective? Have you ever regarded a flower with the same sincere heart you would express toward an ancestor you longed to meet? Have you ever looked at the mountains and rivers and felt such incredible inspiration from nature that you spontaneously burst forth praising God? If you have never had this kind of experience, I can only conclude that you are not qualified to be a lord of creation.

—Rev. Dr. Sun Myung Moon, June 28, 1959,
Former Church Headquarters, Cheongpa-dong,
Seoul, Korea

In observance of UN World Environment Day, we are featuring an exciting summit with expert speakers to awaken our consciousness and promote action in protecting and renewing our ecosystems. Dr. Sun Jin Moon, Executive Director of the Hyo Jeong International Foundation for Environmental Peace, will give the welcoming address followed by two well-known scientists who will speak on the theme of Rejuvenating Our Ecosystems.

- Dr. Rattan Lal, Distinguished University Professor of Soil Science, The Ohio State University, will speak on “Addressing the Problem of Land Degradation.”
- Dr. Douglas Tallamy, Professor, Department of Entomology and Wildlife Ecology, University of Delaware, will present “Starting Conservation in Your Own Yard.”

The presentations will be followed by a question-and-answer session between the two scientists and the participating audience.

During lunch, program partners will offer brief remarks describing their work.
