

# OUR PACIFIC PROJECTS

WFWP Australia.org

## SunHak Primary School

(Solomon Islands)

In 2010, WFWP Japan provided funding for the building of the kindergarten. Since then, WFWP Australia has provided school materials and equipment. Located in the Solomon Islands capital of Honiara, it is situated close to the city centre. The private school is recognised by the government and is growing into a full primary school. With a family centred philosophy of teaching children to develop their sense of community through sharing, developing empathy and understanding for each other, the Academy has the reputation of being the best school in the area.

## Pacific Islands Scholarship Fund

(Solomon Islands, Vanuatu)

The WFWP "Pacific Island Scholarship Fund", is a not for profit development program launched in March 2017 that aims to provide young adults from Solomon Islands and Vanuatu with opportunities to access empowering education programs in their own country.

## Women's Sewing Centres

(Vanuatu, Samoa, Solomon Islands, PNG)

Our Women's Sewing Centres provide Island women the opportunity to gain skills and support their families economically. With the short term goal to bring women together to learn and/or volunteer their skills, the long-term goal is for women to become economically independent. Our most developed sewing centre is in Honiara in the Solomon Islands and closely collaborates with the SunHak School, providing uniforms and funds. The sewing centre is currently expanding, as more women join and new projects are developed. Other sewing centres are in Vanuatu, Samoa, Fiji and PNG.

## Books for the Islands

(Solomon Islands, Vanuatu, Fiji, Samoa, PNG)

WFWP-Australia initiated the 'Book for the Islands Project' in 2008. Since then, we have shipped thousands of boxes of children's books to local primary schools in Vanuatu, the Solomon Islands, Samoa and PNG because many of the Island nation schools do not have libraries. WFWP-Australia has worked towards expanding the resources of school libraries by supplying good quality children's books, either in the English or French language.

## Endeavour Credit Fund

Endeavour Credit aims to empower women in the Island Nations of Oceania by directly investing in their business idea, through a micro credit loan. Studies show that when women are given economic opportunity, it benefits not only their families, but their community, and ultimately national economic development. Highlighting the first Global Goal, providing economic opportunities for women puts poverty reduction on a faster track. Recipients are women with low to moderate income who have viable business ideas and strong business plans that do not meet the criteria of banks or other traditional lenders.
