the 37th 21 days

JeonDo. It was precious
weekend in which we
testified about True
Father. The atmosphere
was like a family and
even small number of
participants but they
were inspired by Divine

Principle with finding answers of their questions. All participants expressed the desire to study more Divine Principle and True Father's life. We will prepare with them for upcoming 7 days DP WS by continuous DP Study, reading True Father's Autobiography and ManMulBukki(FR) training. We are grateful to have the opportunity to testify the truth! And we will put serious effort for God and True Parents more and more!

Elena-Maria Chirita (19 years old, student at Foreign Languages): Before these few lessons I had many questions to which nobody could answer. But only these few lessons I understand many things. Especially, the most confused questions I had, the things of the 2nd coming of Jesus, the choice of Abel and how can I communicate better with God. Having all this clear answers makes me very happy and curious; looking forward to learning more and more. I think teenagers should at least try to understand this view. Knowing all of this I think I will be able to have a happier family, I want to teach my kids about this Principles, help them to understand, open their eyes to see the Truth. This classes will help me be more patient and love people who hate me, I want to put them in practice anytime is possible like stopping fighting, stopping myself from thinking bad about them and also coming closer to God's heart with praises and thanks.

Ana Maria Petre (20 years old): It was a wonderful experience for me to see so open and welcoming people. I found many interesting things the fact that exists only one truth. I came to this workshop because I wanted to develop myself. If I want to change this world I need to start with changing myself.
