## How to Restore Human Values - Education for New Guests

Bucharest, Romania, 21. November 2012

Greetings from Romania!

Our Saturday one day workshop proved to be challenging this week. We've invited about 14 persons but eventually only two have graduated the workshop. This was very surprising at first but then we tried to focus on our responsibility and pour our hearts of love to the participants. The atmosphere was peaceful and the two young Romanian brothers were very attentive and responsive to the lectures. Their sincere attitude helped us to overcome our worries and to look with hope to the next workshop. We are very grateful for this challenge which allowed us to become more humble and to reflect upon our Jeongseong and dedication. Thank you True Parents! We will make this center full of Love and Truth!
