### **Reflections**

Prof. Ingrid Armoa: Many thanks to the organization for this important distinction. Very happy and proud. And as our dear Dr. Susana Barúa said today, this recognition is not to hang it on the wall, but to demonstrate every day why we were deserving it. Let us continue working and contributing our grain of sand for the benefit of others.

Prof. Gricelda Galeano: Thank you very much, I feel blessed with such an important distinction, and it gives me a lot of strength, I will continue the fight tirelessly.
