

Special Jeong Seong Conditions to prepare for the First Anniversary of Foundation Day

H. Inose

January 8, 2014

Dearest Brothers and Sisters in the United States,

How are you? We are expecting a series of wonderful events for the first anniversary of Foundation Day to take place in Korea on February 12th, 2014 (January 13th by the heavenly calendar). Only a little over a month remains until that date. Let us prepare for the first anniversary with all our Jeong Seong, uniting with Continental Director Archbishop Ki Hoon Kim, HSA-UWC President Dr. Michael Balcomb, and all leaders and members in the United States. I have already reported about our Kodan conditions and received Archbishop Kim's and Dr. Balcomb's blessing.

Foundation Day declared to heaven and earth the perfection, completion, and conclusion of God's providence of salvation as well as the substantial launch of Cheon Il Guk. We received the most incredible blessing in human history as the first people allowed to return to the original position of God's creation. We can only offer our heartfelt gratitude to the True Parents of Heaven, Earth and Humankind for their infinite love and immeasurable work.

WFWP International Vice President Mrs. Yeon Ah (Choi) Moon has testified to True Mother as follows:

“Seeing True Mother up close, I feel that she acts and thinks like True Father. True Father always lived centered on heaven, investing all his heart in everything that he did with very little sleep at night. Because of this, those who worked closely with him had difficulties both physically and spiritually when following him. After his Seonghwa, True Mother said, ‘I never slept over three hours because I attended True Father all my life.’ Now that he is in the spirit world, we would like her to rest a little. She is 70 years old, so she should spend time resting and taking care of her health.

“True Mother, however, does not rest at all. I actually think that her current rest time is shorter than her rest time when True Father was with her physically. Seeing her work without much rest, I cannot help saying to myself, ‘She is indeed True Mother, whatever may happen.’ Whether True Father is on earth or in the spirit world, her lifestyle has not changed.”

True Parents said the following:

“The hope of humankind is to meet True Parents. Meeting True Parents is the fruit of history, the center of this age, and the foundation upon which to begin the future. You who are engrafted to them are becoming branches. Until now, all the hopes of the historical ages have focused on the future, but a connection with True Parents during one's lifetime comes only once in eternity. It is a precious chance that comes only once. Your ancestors could not have it, nor will your descendants. Your hope lies nowhere except in becoming sons and daughters of True Parents and embodying them as true filial sons and daughters. From now, True Parents will become the almighty earthly king centered on heaven. This will be the center

where all hopes bear fruit, including the hopes of humankind, history, and this age. You can find hope nowhere else.”

(Cheon Seong Gyeong Book 2, page 174 in Japanese; page 236 in English)

After True Father’s Seonghwa, True Mother has given us much guidance, but at the same time she carries the cross in her heart and goes over her physical limitations. No one has understood this well. Then, what does her heart wish for us? She said:

“At this time when we launch the VISION 2020 project ... I would like to have all of you succeed and rise as victors.” (Cheon Jeong Gung, Korea, April 10, 2013)

“Those of you who received the Blessing from True Parents are the happiest people in human history. Your heart of gratitude will lead you to freedom. God’s kingdom on earth and in heaven will come automatically. Father ascended to the spirit world before we had a chance to repay him for what he did for us. While I am on earth, let us become one and repay him for his benevolence.” (Las Vegas, United States, October 28, 2012)

Thanks to True Parents’ unconditional grace, we were able to make it to Foundation Day in 2013. On the first anniversary of Foundation Day in 2014, we as the owners of Cheon Il Guk should exhibit our tradition, that is, attending True Parents of Heaven, Earth and Humankind with heartfelt gratitude and Jeong Seong.

2014 is the year when the blessing of Foundation Day begins to substantiate. In order to inherit and multiply this incredible blessing of Foundation Day, let us give our utmost Jeong Seong, especially until the first anniversary, to the extent that our Jeong Seong at this time is better and higher than any other time. Let our Jeong Seong move heaven and fill the year 2014 with development and victory.

Let us dedicate our special Jeong Seong at this historical time together with Continental Director Archbishop Ki Hoon Kim, HSA-UWC President Dr. Michael Balcomb, and all leaders and brothers and sisters in the United States.

Please ask your Kodan leaders about the details of the condition. May God bless you and your family!

H. Inose
President
