

## D.R. Congo's Religion-Scientific Workshop on a New Perspective about Jesus

Jean-Pierre Kadima  
May 18, 2019

On Saturday, May 18, 2019, we organized a Religion-scientific workshop on a new perspective about Jesus, to give a new understanding of Jesus two thousand years after his existence. We had 36 participants.

This workshop was held in the amphitheater of the Campus. And the purpose of the workshop was to think of the Lord Jesus Christ in this Easter time that marks his resurrection and to give an understanding of Jesus other than that of dogma.

Participants were emitted from the material because it was new to hear such strong statement about Jesus, about the truth about his life and his mission.

Some asked questions and were satisfied; they promised to participate in other activities and become active CARP members.
