Phnom Penh, Cambodia - In a ceremony filled with warmth, gratitude, and deep spiritual joy, the Family Federation for World Peace and Unification (FFWPU) Cambodia gathered its blessed families and community members on July 19, 2026. Together, they witnessed a sacred Family Blessing Ceremony as four beautiful couples were united as eternal families under the love of Heavenly Parent and True Parents.

The special occasion brought together members from across Cambodia, each standing as a living witness to the truth that true love and ideal families are the foundation of a peaceful world. As the four couples stood hand in hand with open hearts, the atmosphere was filled with humility and reverence - a moment where Heaven and Earth met in celebration.

"Every Blessing is a new beginning," reflected members present at the ceremony, "a seed planted in love, nurtured by the tradition and heart that our True Parents, and especially our Holy Mother, Dr. Hak Ja Han Moon, have devoted their entire lives to establishing for humanity."

The ceremony was conducted with the utmost respect for the tradition entrusted to us through the guidance of Holy Mother Han, whose lifelong dedication to peace, family, and the restoration of true love continues to inspire blessed families worldwide. FFWPU Cambodia expressed heartfelt gratitude for her tireless leadership, humbly committing to follow the path she has laid out for all of Heavenly Parent's children.

Surrounded by family, friends, and brothers and sisters in faith, the four couples exchanged sacred vows not only to each other, but to a life of service, love, and unity centered on Heavenly Parent. Together, the couples vowed to:

Complete the ideal of creation envisioned by Heavenly Parent.

Build an eternal and harmonious husband-and-wife relationship.

Inherit the tradition established by True Parents of Heaven, Earth, and Humankind.

Fulfill the vision of an ideal family centered on true love.

Their union stands as a living testament to the power of true love to heal, restore, and unite generations in harmony.

Witnesses to the ceremony expressed a shared sentiment: a renewed commitment to building loving families and peaceful communities, continuing the model of true love embodied by True Parents and carried forward under the leadership of Holy Mother Han.
