

3 Day Divine Principle Workshop

HARP Hungary

Pecs, Hungary, 28. – 30. December 2012

I would like to report that 28-30 of December 2012, we held a 3 day DP WS for our HARP age 2nd generation children. The seminar took place in our National Training Center, Pecs City. This was the first time for those children who came for this WS to listen the full DP lectures, the same way and same content what we used to teach to outside people. The following short testimonies hopefully give back the impact and effect what this DP WS made on them:

" I got to know why the History is repeating itself. I liked very much how the providential families are connected and what exactly happened. It was shocking to realise how much indemnity condition was done by the past figures."

"It was very good that through each lectures we got clear explanations, they all were interesting and logical. I learned what does it mean to have Foundation for Messiah. Vertical relationship with God and love the People.

" We can be grateful that we were born as 2. generation children, and we got to know the Church and this way we can learn about the truth. Now I recognised how lucky we are, really.

"How important to fulfil our individual and collective responsibility, otherwise later our children and others need to pay greater price for our mistakes."

" The atmosphere was like a family, the love and unity was touchable. The lectures were excellent and many of my questions were answered. The WS was in a beautiful place, the meals were very delicious."

All the best. Tibor
