48th Heavenly Parent's Day and other connected Holy Days Celebration

The Church Communities this time did not come together on National level but they all celebrated centering on the local churches. The Budapest community because of its size had to rent a place in the Benczur Hotel to organize the celebration. The event was guided by the National Leader couple. The National Leader in his new year speech focused on Joshua and asked the congregation to learn from him how he behaved for the sake of unity and staid with his people after being rejected even though he was right. And he was showing some part of True Mother words from the "We are happy People" video. As part of the celebration

several members, couples and children got award because of their exemplary work in witnessing and in public life. After lunch time there was a cultural entertainment and with the lottery and closing prayer we offered the first day of CIG-3 to Heavenly Parents and True Parents.
