## Hun Dok Hwe Reading

**Cheon Seong Gyeong**

### **BOOK TWO: True Parents and Us**

To be a child of filial piety, you should know what kind of people your parents are. Do you really know what kind of people they are? Have you ever considered whether your knowledge of your parents comes just from the teachings you have received, or do you truly know them? You have come to the Unification Church and are walking the path of sons and daughters of filial piety. But you used to be little babies with dirty diapers. You used to be little babies biting and sucking your mother's milk. You grew up that way, receiving your parents' love. If there is a philosophy which is the best one in this world, it must be the parent-centered philosophy. Parent-centered philosophy is the best. You are not little children anymore. You all must learn. This is what parents want.

Although you were born from Mother's womb, you are still adopted sons and daughters, so you must be loyal to those parents. When you become a parent yourself, a four-position foundation is created. You can never have heavenly children all by yourself; having heavenly children clearly requires that heavenly parents appear first.
