**General Report of the event - including photos and an assessment for the impact of the event.**

Anyonhasseyo!

At the end of March 21 days JungSung Condition for JeonDo(Restoration of Man), Romania Movement organized successfully an 1 day and 2 days Divine Principle Workshop to teach Divine Principle for Romania young people. The unity of brothers and sisters created a family environment proper for our guests to receive easily the content of Divine Principle. As a result after the workshop the participants felt inspired by the experience, witnessing the presence of God in the Workshop, desiring to study more Divine Principle and engage in ManMulBuki.

At the end of the 2 Days Workshop we emphasized to start a spiritual life by disciplining themselves through Weekly Shimjung Diary and ManMulBuKi (True Governance) as a preparation for coming 7 days Divine Principle Workshops in April and May!

We hope that with this Workshop we could bring much joy and beauty to our True Parents!

Kamsahamnida!

### **Participants Reflections:**

**Alecu Hermina, 20 years old, Student.** This two days I have deepened my principles learned before, becoming more clear. I met wonderful people and I am grateful that I've been invited to this Workshop. In the same time I felt like in the family and I am interested to participate more at this kind of Workshops. For me the lectures were easy to understand and interesting because I heard from other perspectives what I knew before. What I learned became a plus to what I know that is the reason I want to study more about Divine Principle. I will like to end by saying that the lecturers deserve a high plus because they had patience with us, for detailed lectures and for answering to our questions very well. Thank you from my heart for a wonderful week-end.

**Potirnice Alexandru, 20 years old, Student.** My mission was to clear my mind and fill my heart with hope and happiness. During this 2 days workshop I learned the true meaning of life and love, realizing that to be happy means to make everybody happy. I know now that my duty is world's duty: to feel God's love. In the same time I could learn a little bit of Korean culture. I think my mission is complete and I will like to grow my only shimjung!

**Bucur Oana, 23 years old, Student.** I felt very good and I am grateful for Laura that she found me and she offered me the opportunity to have this kind of experience. Thank you Laura.

I think I became a little bit open through singing, because usually it is difficult for me to sing together with others, thinking that my voice is not nice, and it sounds very bad. For me being a difficult period, having many thoughts but being with you they lose their intensity feeling better inside myself. Thank you very much!
